and you realize that there are no secret places. And beyond you in the ghostly future you know that forever. No sense getting uptight; everything was going to be all right. "I am Amos, and I am here to see what makes you so uninteresting that everyone tells me to avoid." "If you say so," said Amos. He went to the trunk, walked all around it three times, then gingerly lifted the lid. He didn't see anything, so he lifted it further. When he still didn't see anything, he opened it all the way. "Why, there's nothing in ..." he began. But then something caught his eye at the very bottom of the trunk, and he reached in and picked it up. After what seemed a long, long time, he saw a flicker of silver-white, and coming closer, he saw a shocking sight than Lou. At noon Amanda was waiting for me out on her deck. She came down the steps toward the. It was a small story on page three, not very exciting or newsworthy. Last night a man named Maurice Milian, age 51, had fallen through the plate-glass doors leading onto the terrace of the high-rise where he lived. He had been discovered about midnight when the people living below him had noticed dried blood on their terrace. The only thing to connect the deaths of Harry Spinner and Maurice Milian was a lot of blood flowing around. If Milian had been murdered, there might be a link, however tenuous. But Milian's death was accidental? a dumb, stupid accident It niggled around in my brain for an hour before I gave in. There was only one way to get it out of my head. RUSSELL'S I Changed? When? "No," she screamed. "Selene, let go of my hand!" Dramatization is another. I (like many reviewers) often stage a tittle play called The Adventures of Byline. Byline (or "1") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that I? the real, historical personage? actually did or will or wish to rewrite story X, or that I expect its real, historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory. complexity of the life in such a barren place. The situation is complicated further by the emergence and rapid economic and military growth of the-Chinese-Japanese Co-Prosperity Sphere, which threatens to confront Moscow with an unassailable power bloc should it come to align with ourselves and the Europeans. More than a few Kremlin analysts must see their least risky gamble as a final resolution with the West now, before such an alliance has time to consolidate.
