"No!".plunder. But they send their sons west dragon hunting. In sport. As if the dragons of the West.The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back..The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny.Otter had got control of his face and voice. He wiped his eyes and nose, cleared his throat, and said, "Might be a good idea. Come to Roke. Safer."."Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room,."I'll see you then," said Diamond, looking big and handsome and indifferent, and walked off..All right. He did so at last, watching to see if she was gentle with his friend and would protect her. Then he followed another woman meekly enough. They walked slower,."Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving the door wide open behind him. She could see bookshelves and books, a table piled with more books and inkpots and writings, two or three boys seated at the table, and the grey-haired, stocky man the Doorkeeper spoke to. She saw the man's face change, saw his eyes shift to her in a brief, startled gaze, saw him question the Doorkeeper, low-voiced, intense..on running away. With you. And play music. Make a living. They left the carter to his master's business and walked down to find an inn near the docks. The necessity of not swearing had been a burden to him in his youth, and for thirty years the imbecility of apprentices, clients, cows, and chickens had tried him sorely. Each had met his match, and in their final confrontation, somewhere in the Sea of Ea, both perished.. "Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost her something to say that, yet when she had said it she felt released, untied too. What was she keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem. Things came round if you could wait for them, she thought. Rose had looked after herself.the background, making do with slaves and prentices..Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs.
