I'm on the concert tour and work their stim board, me and my console over there on the side of the stage. It isn't that much different in principle from playing one of the instruments in the backup band, though it's a hetL of a lot more complex than even Nagami's synthesizer. It all sounds simple enough: my console is the critical link between performer and audience. Just one glorified feedback transceiver: pick up the empathic load from Jain, pipe it into the audience, they react and add their own load, and I feed it all back to the star. And then around again as I use the sixty stim tracks, each with separate controls to balance and augment and intensify. It can get pretty hairy, which is why not just anyone can do the job. It helps that I seem to have a natural resistance to the sideband stopover radiation from the empathic transmissions. "Ever think of teaching?" said the school voc counselor. "No," I said. "They didn't even notice that the jailor was gone." For what they had done last night after we left them, was to take the jailor's key, free the prince, and tie

up the jailor and put him in the cell under all the grey blankets. In the morning, when the sailor had come to exchange clothes, Jack had freed himself again when the sailor left, then slipped off the ship to join Amos. "I suppose it is," Barry said noncommittally. He couldn't figure out why the usher wanted to tell him. "I have thought about it." She waited for a long time. "I think the chances are about a thousand to one. well. In another half hour I said I had to call it a night. I had to get up early the next morning. I always around, but it was a damn close thing. Lou was young; so was Cantrell. They were both fresh from flying. But what Corporal Swley was concentrating on so intently were the minute specks of brighter reds that might or might not have been imperfectly obscured defensive positions, and the barely discernible hairline fragments that could have been the thermal footprints of recent vehicle movements. Nolan hadn't anticipated the intensity of his own reaction. But now, after the long trip back in the wheezing launch, he stood beside the crib in the spare bedroom and gazed down at his son with an overwhelming surge of pride. pretty nice package: a fifteen-percent across-the-board hourly rate increase; full-paid hospitalization; I will? when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet. He shrugged. "No idea." "Ideas . . ." he said, in a slow, deliberate manner, as though each peered in. "I'd advise you to do it," Crawford said. "I know my opinion means nothing after shooting my mouth off. I know I'm a fine one to talk; I won't be cooped up in here. But the colony needs it We've all felt it: the lack of a direction or a drive to keep going. I think we'd get it back if you went through with this." She's older than I am, four, maybe five years; but she looks like she's in her middle teens. Jain's tall, with a tumbleweed bush of red hair; her face isn't so much pretty as it is intense. I've never known anyone who didn't want to make love to her. "When you're a star," she said once, half drunk, "you're not hung up about taking the last cookie on the plate." "Oh, of course. Minor poets do nothing else. They positively swarm. I'd rather be major and lonely, thank you very much." Marvin Kolodny frowned? an ingratiating, boyish frown. "Are you sure you're being entirely honest with yourself, Barry? Few people are completely willing to talk about something. We've all got hobbyhorses. What was your wife interested in? Couldn't you have talked about that?" She nodded. "He was my heart" Looking straight at him, she added, "What was his is mine by right." Her chin was up and her head held high. She reached past the hunter and pulled the knife from the door with an ease that surprised him. Gently she took down the skin. She shook it out once and smoothed the nap with her hand. Then, as if putting on a cloak, she wrapped the skin around her shoulders and pulled the head over her own. "You may take a nap," said the grey man. "But come and have breakfast first." The grey man put his arm around Amos' shoulder and took him down to his cabin where the cook brought them a big, steaming platter of sausages and eggs.
