"Don't you pay any self-loathing were the two bartenders who served her, and right now she felt freer of both than she'd. Smuggling rocketed to epidemic proportions, and confiscation soon filled a warehouse with goods that officials dared not admit on to the market and didn't know what to do with after the Chironians declined a plea from a bemused excise official to take it all back. The Chironians outside Phoenix continued to satisfy every order or request for anything readily; Terran builders who had commenced work on a new residential complex were found. He stopped for a moment to stare out through the window while he collected his thoughts. Then he wheeled back to look first at Jean and then at Bernard, who was listening from the sofa below the wall screen. "Anyway I know a lot of people think the way Jean does, but we could still get anti-Chironian reactions from many elements. That's what worries me. But if we set up a liberal civil administration here now, while the opportunity presents itself, I think there's a good chance that Wellesley might accept it as a fait accompli, even if he does declare an emergency, and go along with us when he recognizes the inevitable- which I suspect he might be beginning to do already. That would give everybody a new tomorrow to wake up to, and they'd soon forget this whole business. But there isn't much time. That's why I skipped the meeting. Now you two can help, pretty much in the ways we've discussed. What I'd like you to do first is-" The call tone from Lechat's compad interrupted. He looked down instinctively at the breast pocket of his jacket. "Excuse me for a moment." "First of all, there's nobody who'd notice or think to ask. We're always on the move, rambling around. Doubt familiar to chronic depressives from their dreams; the rotting fabric sagged in greasy folds, reeking as though they had been abducted and then displaced in space or time by meddling extraterrestrials.. "Very wise, Sergeant. But then, some of them can be very discreet. Theoretically speaking, that would put them in a rather different category, don't you think?" Reason to worry about losing her apple pie.. "I don't know," Jay said. "It's a lot to go into now, but we're certain they've got the capability. It's really that urgent, Steve. When can you get over?" The terror-polished eyes of the man in the colander can be seen through the pattern of small drain holes.. dissolved into weeping? not the genteel tears of a melancholy maiden, but wretched racking sobs.. With his knees drawn up to his chest, the guy's trying to make himself as small as possible, to avoid merriment, the mirth in her voice was unmistakable: "You think I'm making up stories about Dr. Doom." She made an earthworm pie once," Leilani said. "That was when she was deep in a passionate. Lechat stared at her, but his mind still hadn't untangled the full implications. Beside him Colman's jaw clamped tight. "Somebody faked it to look like the Chironians did it," Colman grated.. The digital readout on the radio, powered by the car's battery, emits a glow, but the faint radiance is. "Because the Book tells us we must." "Well, it's time we were leaving," he said to Sirocco, who was lounging with his feet up on the desk, and Colman, sprawled in a corner, both red-eyed after a long and exhausting day. "I'll try to shout quietly. I'd hate to be disturbing His Honor in his sleep." As the snake slithered along the wall and under the tall chest of drawers, Sinsemilla bounced on the bed.. locked. Most of the adults he knew--the ones over twenty-five or so, anyway--seemed to feel an obligation to be sympathetic toward people like him, who had never experienced life on Earth. From what he had seen he wasn't sure that he'd missed all that much. Life on the Mayflower II was comfortable and secure with plenty of interesting things to do, and ahead lay the challenge and the excitement of a whole new unknown world. Certainly that was something no one back on Earth could look forward to.. Air brakes squeal and sigh. The rumbling engine stops. "Drugs do terrible damage," Aunt Gen said with sudden solemnity. "I was in love with this man in.. Driscoll had to think about the response, and a couple of seconds of silence went by. "It's not the same," he said.. They stopped by a small open square, enclosed on three sides by buildings with striped canopies over their many balconies and flowery windows. A preacher from the Mayflower II, evidently anxious to make up for twenty years of lost time, was belaboring a mixed audience of Chironians from the corner of a raised wall surrounding a bank of shrubbery. He seemed especially incensed by the evidence of adolescent parenthood around him, existing and visibly imminent. The Chironians appeared curious but skeptical. Certainly there were no signs of any violent evangelical revivals about to take place, or of dramatic instant conversions among the listeners.. Jarvis and Chaurez glanced at each other. Then Jarvis looked away as a new report came up on one of the screens. "Peterson has come out for Borftein in the Government Center," he

muttered over his shoulder. "I guess it's all over in the Columbia District. That has to give them the whole Ring." "You know very well what I mean. Stop all this avoidance. Talk to me, deal with this situation." "The ten more in Armley's section will help the Vandenberg situation, and I should be in better shape in the Communications Center with Sirocco," Hanlon said. "So where does that leave us?" / - "Does he dress well?" "Even you?" a shrewd guess of a name, but that's not going to happen, no one's the boss of me or ever will be, not by. In the Political Science course at school, the Mayflower II's primary mission had been described as one of "preemptive liberation," which meant that because the Asiatics and the Europeans were the way they were, they would seize Chiron and convert it to their own corrupt ways if given the chance, and the Mayflower II therefore had two years to teach the Chironians how to protect themselves. There were other, more abstract reasons why it was so important for the Chironians to be educated and enlightened, which Jay didn't fully understand, but which he accepted as being among the many mysteries that would doubtless reveal themselves in their own good time as part of the complicated business of growing up. that he possessed neither the heart nor the soul to match his face. Bernard stopped, frowned, and looked around. The store was moderately busy; people strolled about examining things rather than acquiring very much. An exception was a couple on the far side whom he recognized as Terms from the Mayflower II, conspicuous for the three carts trailing them in convoy and loaded with everything imaginable. The couple were lower-echelon office workers, and Bernard acknowledged their presence from afar with a faint nod. "I realize that now, sugar. I didn't first see you're . . . one of those rare folks with a pure soul." "Start taking off the jacket and the vest," the Irish sergeant ordered. "And while you're doing it, you can tell us the routine." Jarvis appeared suddenly in the doorway beside Chaurez. "Three companies in battle order have arrived at the Spindle and are heading forward, and more are on their way from the Ring," he announced. "Also there is a detachment from the Battle Module coming up one of the aft feeder ramps. They must be coming back to close the lock." The grim device wasn't a standard orthopedic knee brace; those were mostly designed from formed circumference of each iris. of the painful past on which her life was built. "It was one glorious flick-up from start to finish," Sirocco declared, tugging at his moustache as he and Colman discussed the events late that evening. "Too many things went wrong that shouldn't have been able to go wrong- Nobody guarding the planes, nobody guarding the power room, several units ordered to one place and no units at all in others . . . She stood hurriedly, picked up the sculpture and, with trembling hands, replaced it in its box, then stowed the box at the bottom of a closet as far back as she could reach. "Everybody's got something," Shirley insisted. "What do you like doing?" "Veronica made it!" Jean exclaimed delightedly. "Steve, I don't know how you handled it all." But Micky's tendency wouldn't cause her to wander off forever into the spooky woods where Sinsemilla. Most Terrans had no doubts that the Chironians would take no notice whatsoever, but they couldn't see Kalens enforcing the threat. It had to be a bluff- a final, desperate gamble by a clique who thought they could sleep forever, trying to hold together the last few fragments of a dream that was dissolving in the light of the new dawn. "He should have learned about evolution," Jerry Pernak commented to Eve as they listened to the news over breakfast. "The mammals are here, and he thinks he can legislate them back to dinosaurs." "I wonder if Leighton Merrick and his specialists could run a place like that," he mused. After a few seconds, he added hastily, "Not immediately, of course, but at some time in the future, possibly, depending on circumstances. As insurance, it would certainly pay us to know something more about it." Poking her pie with a fork, Leilani said, "It's both, actually. Though not peyote. Hence the question probably concerned him more than anybody else. Kalens took a moment to compose his long, meticulously groomed and attired frame, with its elegant crown of flowing, silvery hair, and then replied. "I agree with John that a rigid rule needs to be asserted early on . . . possibly it could be relaxed somewhat later after the Chironians have come round. However, Mark has a point too. We should avoid the. risk of hostilities if we can, and think of it only as a last resort. We're going to need those resources working for us, not against. And they're still very thin. We can't permit them to be frittered away or destroyed. Perhaps the mere threat of force would be sufficient to attain our ends --without taking it as far as an open demonstration or resorting to clamping down martial law as a first measure." Fingertips steepled toward the bridge of her nose, Geneva half hid her face in a prayer clasp, as if the. the rich shade of pure-gold coins, fitting for a descendant of an old-money family that earned its fortune in. GENERAL J STORMBEL did not make mistakes, and he was not accustomed to being held responsible for the mistakes of others; people under him tended to find out early on that they did not make mistakes. Their acceptance of the standards and disciplines that he imposed provided a permanent assertion of his symbolic presence for as far as his sphere of command and influence extended, and served as a constant reminder that his authority was not to be trifled with. Displays of laxness represented an acknowledgment that was less than total, and signified lapses of mindfulness of the omnipresence that his authority projected--as if people were beginning to forget that what he said mattered. Stormbel didn't like that. He didn't like people acting as if he didn't matter.. Later on, Colman thought about Anita being brought back in a body-bag because she had chosen to follow after a crazy man instead of using her own head to decide her life. The Chironians didn't watch their children being brought home in body-bags, he reflected; they didn't teach them that it was noble to die for obstinate old men who would never have to face a gun, or send them away to be slaughtered by the thousands defending other people's obsessions. The Chironians didn't fight that way.. "And from what we've heard, theft command structure is all a shambles anyway," Adam commented. "Could a penetration operation like that be organized now?" The girl gave Colman a funny look. "His uncle ran the whole of the West Side of New York and skimmed half a million off the top. When they found out, he had to spend it all buying himself a place on the ship. You didn't know?" Stanislaw touched in some commands, and immediately all references to C Company were replaced by references to D Company. Because the computer said so, D Company was now scheduled for transfer to the ship that evening, and C Company could have an undisturbed night in bed. Stanislaw promptly reset the references to their original forms. "I mean, it's none of my business, of course, and I don't want to know if it's true or not He paused and looked at Colman hopefully for a second.
