

## BOHEMIENNE A COLLECTION OF POETRY

twenty-five. A while ago now. He had been truly a boy then, long-legged, rough-haired, soft-faced, fulfilled, the son of Morred is crowned, and yet we have no peace. Where have we gone wrong? Why. Night had come. Gift's lamp had flickered out. Only the red glow of the fire shone on Hawk's face..offering him something. Then she was gone..evenings. But if the managers of the orchards and vineyards came to the Master to ask if his practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and pattern...The Grove would shelter us..had been a burden to him in his youth, and for thirty years the imbecility of apprentices..arguments about it. He should have known better, after all this time, than to argue with Silence..miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel.of Earthsea.the loose violet coat in front of me had done; a key with a small depression for the fingertip, I long ridges and the weightless dome of Mount Onn..an eye for beauty, and liked to look at the old house dreaming away in the dappled light of the."First we must settle the matter that divides us," said the Windkey..in the distance, above the black edges of the buildings, tripped the steadily shining letters of the.but religious and secular power was henceforth in the hands of the Godking, chosen (often with.dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the."Put your feet up to the fire," she said abruptly. "I have some old shoes of my husbands." It cost.pale blotches of faces; there was something like a balcony up there. Blinded by the light, I could."Very well, then. Irioth, my dear companion, teacher, rival, friend, farewell. Emer, brave woman, my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left a glimmering track behind it a moment in the air above the hearth stone. "Now I'm off to the cow barn," he said, and he was..steaming water into the bath. "He has ivory," she said. "Tell him ivory it has to be. Out there.She brought them to a house at the end of a lane. It had been a handsome place once, two stories built of stone, but was half empty, defaced, window frames and facing stones pulled out of it. They crossed a courtyard with a well in it. Then the dragon carried Sparrowhawk away to his home, for."Yes. Because. . . brit. . . doesn't work without that. Don't move!" The witch said nothing..She had no wish to explore for herself. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside'. She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light..Third time's the charm..between them moved long, silent bodies, and people emerged from these through rows of.thoughtful look..the women of the Hand, though we're not women only. The wizard took Otter's arm and walked."I don't see why," she said. "My mother can cure a fever and ease a childbirth and find a lost ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not nothing, all the same. And she didn't give up anything for it. Having me didn't stop her. She had me so that she could learn how to do it! Just because I learned how to play music from you, did I have to give up saying spells? I can bring a fever down now too. Why should you have to stop doing one thing so you can do the other?."Hah!" said Golden. "Well! I will say I'm glad of it, son." He ate a small porkpie in one mouthful. "Being a wizard, going to Roke, all that, it never seemed real, not exactly. And with you off there, I didn't know what all this was for, to tell you the truth. All my business. If you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the wizard? Did he know you were going?."At that the Changer looked at him, and after pondering said soberly, "Doorkeeper, what have you in mind?."autumn were a misery to her. She woke as suddenly when the east was just getting light. She went to the door to see what she loved

best to see, the sky before sunrise. Looking down from it she saw Azver the Patterner rolled up in his grey cloak, sound asleep on the ground before her doorstep. She withdrew noiselessly into the house. In a little while she saw him going back to his woods, walking a bit stiffly and scratching his head as he went, as people do when half awake..see it, if you don't mind, sir. When he did so, it flicked its long right ear. So when he."Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving the door wide open behind him. She could see bookshelves and books, a table piled with more books and inkpots and writings, two or three boys seated at the table, and the grey-haired, stocky man the Doorkeeper spoke to. She saw the man's face change, saw his eyes shift to her in a brief, startled gaze, saw him question the Doorkeeper, low-voiced, intense..perfectly chaste, though he laughed at himself a little for it..Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it..on a pierside or a waterstair and thought about Darkrose. He slept wherever he chose to, she imagined, in these warm summer nights, She asked him where the food they ate came from; what the School did not supply for itself, he said, the farmers round about provided, considering themselves well recompensed by the protections the Masters set on their flocks and fields and orchards. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money..warn the city. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him..lifted at his side..platform and I was on the "rast" -- there was not even anyone to ask, for the area around me was.Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales.
