She looked at..This is Alpertron, Ltd.'s, own chartered jet, flying at 37,000 feet above western Kansas. Stella and Jain are sitting across the aisle from me. It's a long Sight and there's been a lull in the usually boisterous flight conversation. Jain flips through a current Neiman-Marcus catalogue; exclusive mail-order listings are her present passion.. "Oh, awful things," said Amos, "like onvbpmpf, and elmbmpf, and orghmflbfe." "In the center of the swamp," said the grey man, pointing over the ship's railing, "is a luminous pool. At the bottom of the pool is a piece of mirror. Can you be back by lunch?".With the tip of his thin grey sword he cut Amos' ropes, thrusting him into the jewel garden and closing the small door firmly behind him..hilarious is the coyness, the sidelong glances, smiles, grimaces hinting at things that will never be shown on..Q: Whad's da pard of a song dad isn'd da woids?.nature, and diligence that others expect of us; nevertheless. . .".ought to recognize, but if he had seen her on TV, he didn't remember. Add to this an appropriately grim but beautiful setting..She came to him then, almost as though the stirring had been a silent summons, came like a brown..There would be practical uses, too. A prize bull or a champion egg-laying hen could be cloned, and the genetic characteristics that make the record-breaking aspects of the animal possible would be preserved without the chance of diminution by the interplay of genes obtained from a second parent..I could not have been out more than moments. When my sight cleared I was staring into polycarpet..new picture hadn't opened in downtown L.A. in a long, long time. The action ten years ago was on the..The assumption here is that matters not subject to cut-and-dried "hard" proof don't bear any relation to evidence, experience, or reason at all and are, therefore, completely arbitrary. There is

considerable indirect evidence one can bring against this view. For one thing, the people who advance it don't stick to it in their own lives; they make decisions based on indirect evidence all the time and strongly resist any imputation that such decisions are arbitrary. For another, if it were possible to do criticism according to hard-and-fast, totally objective rules, the editor could hire anyone to do it and pay a lot less than he has to do now for people with special ability and training (low though that pay necessarily is). It's true that the apparatus by which critics judge books is subjective in the sense of being inside the critic and not outside, unique, and based on the intangibles of training, talent, and experience. But that doesn't per se make it arbitrary. What can make it seem arbitrary is that the whole preliminary process of judgment, if you trace it through all its stages, is coextensive with the critic's entire education. So critics tend to suppress it in reviews (with time and training most of it becomes automatic, anyway). Besides, much critical thinking consists in gestalt thinking, or the recognition of patterns, which does occur instantaneously in the critic's head, although without memory, experience, and the constant checking of novel objects against templates-in-the-head (which are constantly being revised in the light of new experience), it could not occur at all.* Hence angry readers can make the objection above, or add: And what about cloned human beings, which is, after all, the subject matter of "Randall's Song"? When Amos came up to the ship with the mirror under his arm, he called, "Here's your mirror. Where are my eggs and sausages?" I drove her up to a little A-frame at No. 43 Apollo on the lower.217.to a child..Damon Knight."Sure, when I was really young." I wish Murray were here. He's much better with words than I am. I'm visually oriented.".I drove, not paying any attention to where I was going, almost as deeply in shock as he was. I finally started looking at the street signs. I was on Mullholland. I kept going west for a long time, crossed the San Diego Freeway, into the Santa Monica Mountains. The pavement ends a couple of miles past the freeway, and there's ten or fifteen miles of dirt road before the pavement picks up again nearly to Topanga. The road isn't traveled much, there are no houses on it, and people don't like to get their cars dusty. I was about in the middle of the unpaved section when Detweiler seemed to calm down. I pulled over to the side of the road and cut the engine. The San Fer-.From across the room Billy Belay tried to make a sign for Amos to be quiet, but the grey man turned around, and the finger Billy had put to his lips went quickly into his mouth as if he were picking his teeth..I am fortunate in that, unlike Hollywood, F&SF seems to be largely immune from trends. The magazine has a reputation for offering variety, and to uphold that image, it seems to me that it must carefully avoid trends and formulas in an effort to publish a balance of different types of fantasy and sf. And so we continue to look for good writing and fresh ideas and entertaining narratives, and once those general criteria are satisfied, we take on whatever seems to be pleasing our writers at the time. That's the best way I know of pleasing our leaders.. "Yes. What do I tell Amanda when she asks how I always know when something is broken?
