

CE QUE DOIT ITRE LE MOUTON

"A fool could sit under the trees forever and grow no wiser." Dulse had the big lore-book open on the table. He had been trying to reweave one of the Acastan Spells, much broken and made powerless by the Emanations of Fundaur centuries ago. He had just begun to get a sense of the missing word that might fill one of the gaps, he almost had it, and—"You might keep some goats," Silence said..unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low..Crow was delighted to get a water-stained bestiary from the time of Akambar in return for five silver buttons, a pearl-hiked knife, and a square of Lorbanery silk. He sat in Hopeful and crooned over the antique descriptions of harikki and otak and icebear. But Tern went ashore on every isle, showing his wares in the kitchens of the housewives and the sleepy taverns where the old men sat. Sometimes he idly made a fist and then turned his hand over opening the palm, but nobody here returned the sign..in Hardic: "A woman on Gont." But when I came back to my own wits, I could not tell them what that..My expression amused her. I looked at her; she stopped smiling..leaving things out, here, things worth knowing....".If he lives I will live,..some spell of his own art that we did not understand, like the spell snakes know that keeps their..ox, the middle-aged man driving the iron-bladed plough, never a word spoken; as they started home..The witch sighed, like the ewe, uneasy and constrained..islands. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be

immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices..fly to Roke. So Lebannen judged it to be a prophecy yet to be."If you share his power he won't harm you. To fear a power, to fight a power, is very dangerous. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed.."Irian of Way," the Summoner said in his deep, clear voice, "that there may be peace and order..communities from drought, plague, invaders, dragons, and the unscrupulous use of their art..sir, but I have to ask, can you pay a little?"."At need," Ard said..ground groaned and moved, drawing together, healing itself..All the people of the Archipelago and the Reaches share the Hardic language and culture with local variations.
