Dragonfly waited. "It's the power, like I said. It comes just so." Rose stopped her spinning and. "What I have to do, you see," the old wizard said, still talking to Silence because it was a. I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth. Otter passed the domed chamber of the roaster pit and its hurrying slaves, and climbed slowly up the circling, darkening, reeking stairs till he came to the topmost room. "I've been thinking about it," she said, hurried and earnest. "Couldn't I just tell them who I am?" "Ah, that," Medra said, rueful. with a row of high pointed windows. But there was nothing left for him to eat. When he rode back to. At first he had thought Diamond had a knack such as many children had and then lost, a stray spark of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and sparkle. His family had praised him for the trick and made him show it off to visitors; and then when he was seven or eight he had lost the hang of it and never could do it again. "I could teach you how to do that for yourself," the wizard said, smiling, watching Otter rub and. She looked up and saw the Hoary Man come out of a dark aisle of great oaks and come towards her across the glade. "I know. No, that's something else. But the marauding dragons of the Lay and the misrule. Or to have any powers." Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay. of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and. As he left the battlefield it began to rain, and he saw his enemy's true name written in raindrops. "Why so, Tern?" "Simply as I protect myself," the wizard said; and after a moment, testily, "The bargain, boy. The power we give for our power. The lesser state of being we forego. Surely you know that every true man of power is celibate." Licky walked him out early every morning, and often they wandered about till late afternoon. Licky. King!" Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them. lifted my head I saw only a black void. "A sending - only a seeming of him. It could not hurt you, Irian." For a moment longer they held still; then the night wind blew across their naked shoulders, and shivering, they waded out, dried themselves as well as they could, struggled barefoot and wretched through the sharp-edged reeds and tangling roots, and found their way back to the lane. And there Dragonfly spoke in a ragged, raging whisper: "How could you name me that!" "She gave me freedom," he said. "And I still feel that all I do is done through her and for her. No, not for her. We can do nothing for the dead. But for..." "If you wish." "A good bit of it?" She pondered. "I don't know." about her. All the people who worked in the heat and fumes of the roaster tower were naked or wore only breechclout and moccasins. Otter glanced again at the slave, thinking by his height he was a child, and then saw the small breasts. It was a woman. She was bald. Her joints were swollen knobs in her bone-thin limbs. She looked up once at Otter, moving her eyes only. She spat into the fire, wiped her sore mouth with her hand, and stood motionless again. She stopped looking about and strode along in thought
