

IN MEMORIAM MEMOIR OF ARTHUR HENRY HALLAM

"Well, that all sounds pretty ho-hum to me up against this," Song said. "Do you ... do you realize . . . what are we talking about here? Evolution, or ... or engineering? Is it the plants themselves that did this, or were they made to do it by whatever built them? Do you see what I'm talking about? I've felt funny about- those wheels for a long time. I just won't believe they'd evolve naturally." "Calm yourself, senior. With my own eyes I saw her go to the boat and she was alone, I swear it. She does not have the little one." "I'm not lying. (I once had a.Unfortunately, launching twelve thousand torpedoes simultaneously put a serious overload on our computer system. Zorphwar runs at A-1 priority on our machine, which means that any other use of the machine is halted while Zorphwar computations are completed. As you may have noticed, it took approximately forty minutes for the machine to compute the paths

through the galaxy of those torpedoes, to determine their impact points, and to calculate the radius of destruction of each burst. Normally such overloads are handled by adjusting the work load in the Computer Center. However, at three thirty yesterday, the Center was in the midst of printing the paychecks for the entire Computer Products Division. The little delay our game occasioned upset the very tight schedule for that operation. As a result, all checks from R through Z were not printed on time and failed to make the courier flight to the West Coast. That is the reason your paycheck was not delivered to you today. Regrettably, it is also the reason that Division President Tailing and Corporation Comptroller Westland were not paid this week. While you are more familiar than I am with the personalities at Headquarters, I suspect that both of these gentlemen like to receive their paychecks. I trust that, if any investigations come out of this little incident, you will do your best to emphasize the fact that the Zorphwar program has already been modified to permit the launching of no more than ten doomsday torpedoes in one attack. Thus, this particular problem will never occur again.

Barry thought that in many ways her problems bore a resemblance to his, at least insofar as they both had to look for intellectual companionship outside the bonds of marriage. But when he began to elaborate upon this insight and draw some interesting parallels between his experience and hers, Columbine became impatient. She did not come right out and tell him that he was in breach of contract, but that was definitely the message conveyed by her glazed inattention. Responsive to her needs, he resisted the impulse to make any further contributions
