On.They had little trouble finding where the matthews came from. They found dozens of twenty-centimeter lumps on the sides of the large derricks. They evidently grew from them like tumors and were released when they were ripe. What they were for was another matter. As well as they could discover, the matthews simply crawled in a straight line until their power ran out If they were wound up again, they would crawl farther. There were dozens of them lying motionless in the sand within a hundred-meter radius of the garden..That's Leigh, the oldest. You turn the viewer, catch a glimpse of Bobby running downhill through the woods, his long hair flying. Then back to the glen: the fox is gone..Miss Tremaine looked up from her typing at the rattle and frowned. Her desk was out in the small reception area, but I had arranged both desks so we could see each other and talk in normal voices when the door was open. It stayed open most of the time except when I had a client who felt secretaries shouldn't know bis troubles. She had been transcribing the Lucas McGowan report for half an hour, humphing and tsk-tsking at thirty-second intervals. She was having a marvelous time. Miss Tremaine was about forty-five, looked like a constipated librarian, and was the best secretary I'd ever had. She'd been with me seven years. I'd tried a few young and sexy ones, but it hadn't worked out. Either they wouldn't play at all, or they wanted to play all the time. Both kinds were a pain in the ass to face first thing in the morning, every morning.."It's good of you to say so," said Barry morosely..Smith made a disgusted sound. He opened the clamps that held the device and picked it up, reaching for the power switch with his other hand. He never touched it. As he moved the device, the ghost images had shifted; they were dancing now with the faint movements of his hand. Smith stared at them without breathing for a moment. Holding the cord, he turned slowly. The ghost images whirled, vanished, reappeared. He turned the other way; they whirled back.."Why, what I meant was that without the morale uplift provided by members of the opposite sex, a colony will lack the push needed to make it.."..Isn't he the one who was killed in an accident last night?". With an inarticulate screech, he ploughs through them, swatting them aside with the backs of his hands, kicking them out of his way with his heavy-booted feet. The Intermediaries break easily, and it occurs to me then that they are probably as disposable a commodity among the Sreen as tissue paper is among human beings. One Intermediary is left limping along after the captain. Through the clear pale skin of its back, I see that some vertebrae have been badly dislocated. The thing nevertheless succeeds in overtaking the captain and wrapping its appendages around his calf, bleating all the while, "No, no, you must abide by the edict, even as every other inferior species has, you must abide. . . ." The captain is having trouble disentangling himself, and so I go to him. Together, we tear the Intermediary loose. The captain flings it aside, and it bounces off the great portal, spins across the polished floor, lies crushed and unmoving..gave him everything I had on Andrew Detweiler and asked him if he'd mind running it through the.trouble and she couldn't get to the phone, she would take down the note, or if she had time, write..baby..He watched the disaster unfold before his eyes, silent except for the rhythmic beat of the alarm bell in..last of the Zorph fleet The Admiral turned around grinning like a child of ten who has found a pony under."I'd advise you to do it," Crawford said. I don't need to bad-mouth Pool Andersen, James Blish having already adequately done so, calling him (in his heroic phase) "the Thane of Minneapolis. . . . Anderson can write well, but this is seldom evident while he is in his Scand avatar, when he seems invariably to be writing in his sleep." (The Issue at Hand, p. 72.) That our literary

heritage began with feudal epics and marchen is no reason to keep on writing them forever. And daydreams about being tall, handsome (or beautiful), noble, admired, and involved in thrilling deeds is not the same as the as-if speculation which produces medical and technological advances. 158. "Don't you understand? She's taken Robbiel!" "Mary, I wanted. . . is it all right if I call you Mary?" 152. And hearing her voice, Brother Hart raced home. At dusk the sun began to fade and the cottage darkened. Hinda got up. She went out to the clearing's. If you ask me, this is a damned stupid topic for a conversation. Aren't you going to tell me your name?" The only light came from the illuminated dials that the guard was supposed to watch all night. There was no one sitting in front of them. Crawford assumed the guard had gone to sleep. He would have been upset, but there was no time. He had to suit up, and he welcomed the chance to sneak out. He began to furtively don his pressure suit. The suitcase, still beside the couch, hadn't been unpacked? except for the clothes hanging in the closet and the kitchen utensils. There was underwear, socks, an extra pair of shoes, an unopened ream of paper, a bunch of other stuff necessary for his writing, and a dozen or so paperbacks. The books were rubber-stamped with the name of a used-book store on Santa Monica Boulevard. They were a mixture: science fiction, mysteries, biographies, philosophy, several by Colin Wilson.
