

HEARING BEFORE THE COMMITTEE ON UN AMERICAN ACTIVITIES HOUSE OF REPRESENTATIVES

inquiringly as his eyes flicked down, then up..In the garden the grey man, with sunglasses tightly over his eyes and an umbrella above his head, was indeed walking through the violent colors and rich perfumes, past the pink marble fountains where the black butterflies glistened. It was hot, he was dripping with perspiration, and his head was in agony..But crazy in a dull, not an interesting way. He wondered how long they'd have to go on talking before..He examined the dome as he walked back to camp. There was a figure hazily visible through the plastic. At this distance he would have been unable to tell who it was if it weren't for the black face. He saw her step up to the dome wall and wipe a clear circle to look through. She spotted his bright red suit and pointed at him. She was suited except for her helmet, which contained her radio. He knew he was in trouble. He saw her turn away and bend to the ground to pick up her helmet, so she could tell him what she thought of people who disobeyed her orders, when the dome shuddered like jellyfish..That's a hard one, but other than that we're no different than any other group of survivors in a tough spot..resisted his hands, pushing back like an inflated balloon..wrote another one. He played them on the TV, one after the other, all through the night, waring mellow and mellow and wishing she were here. Then, hi February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennents of the Apocalypse. She couldn't explain: he would have to see it himself. By the time he'd finally agreed to go there on his next vacation, they had been talking, steadily, for three hours!.*Tm from pioneer stock. I spoke on genetic engineering instead, therefore, and, toward the end, discussed the matter of cloning.. Editors must, such judgments being their bread and butter?and look how often they

fail. If judgments of beauty and truth are difficult, imagine what happens when the issue is escape reading, i.e., something as idiosyncratic as guided daydreams. Perhaps the popularity of series novels is due in part to readers' desire for a reliable, easily reproducible pleasure. But the simplest good-bad scales (like the Daily News system of stars) is always colliding with readers' tastes. Some writers and publishers, in order to be sure of appealing to at least a stable fraction of the market, standardize their product. This can be done, but it tends to eliminate. "It's a ... what's the word? Orrery. It's an orrery." Crawford had to stand up and shake his head.
