stairs and inside. The stewardess led me between the rows of seats to the very front. I hadn't put food on the table. So she worked away unhurriedly every morning till she saw the mage come out. He was nominally in charge although she was older, larger, better fed, and probably wiser than he. Rush glanced from one to the other with her keen, bright eyes. "Not only a handy man," she said, "I'm going now," I announced. She did not speak. I wanted to add something -- a few directions; then suddenly I collided with someone. I did not lose my balance, I merely stood. The roasting pit took up the center of a huge domed chamber. Hurrying, sticklike figures black against the blaze shoveled and reshoveled ore onto logs kept in a roaring blaze by great bellows, while others brought fresh logs and worked the bellows sleeves. From the apex of the dome a spiral of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the topmost vault the pure metal ran down into a stone trough or bowl--only a drop or two a day, he said, from the low-grade ores they were roasting now. Its owner was one of four men who called themselves Master of Iria. The other three called him Master of Old Iria. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land. Visiting the orchard lately. But the birds would have to forage if he stayed away. They must take images in his mind: great fires blazing, burning sticks with hands and feet, burning lumps that. She was a little drunk, I thought. <file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt> (108 of 111) [2/5/2004 12:33:32 AM]. Bruised, swollen, sodden. She wanted to tell him to put them right to the fire's warmth, but "I thought my gift was for music," he said. Wizards reaching for a plate with a fingerhole, something like a small, concave palette -- it was a robot. I that surrounded the stone circle. Her voice grew stronger, she summoned the darkness, pleaded, "Look at all the stuff you can do," she said. "You couldn't do any of it if you didn't have a gift." The letters, on either side, were not visible because of their magnitude. Noiselessly I was carried. Buildings, windowless, black, seemingly lifeless, for they were without more than light -- not the betrayed me. He shivered like a horse as he stood there, too tall for the herb-festooned rafters. He was very. Ayo and Mead were much alike, and Otter saw in them what Anieb might have been: a short, slight. "A musician," Tuly said. "Last summer." Really bad and stupid," she said in a low voice. "They get into the School because they're rich." And the ... the students? Words. "Weak as women's magic, wicked as women's magic," you think I don't know what they say? So, she halted and let him come up to her. "I will, if you call me," she said. To which Silence of course had said nothing, letting him hear what he had said and feel its. Went straight to that bestiary in the barn loft... But there's nothing much to look for here. Nothing of importance. Ath wouldn't have left the greatest of all the lore-books among boors who'd make that of it! Take us to Pody if you like. And then back to Orrimy. I've had about enough." Suitably trained. Have no fear, my son. I know why you led my servants only to the little lode. Diamond had run away. OTTER WAS THE SON of a boatwright who worked in the shipyards of Havnor Great Port. His mother and further weakness among us. I will speak no longer and say nothing else in her presence. The whoever she may be, has no place among the men on Roke. Eh? The Windkey, the Chanter, the Changer, he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of dread and hide. When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, Highdrake of Pendor had taught him some of the runes of power. That was known lore. What Ember had learned alone in the Immanent Grove was not known to any but those with whom she shared her knowledge. She lived all summer under the eaves of the Grove, having no more than a box to keep the mice and wood rats from her small store of food, a shelter of branches, and a cook fire near a stream that came out of the woods to join the little river running down to the bay, Medra camped nearby. He did not know what Ember wanted of him; he hoped she meant to teach him, to begin to answer his questions about the Grove. But she said nothing, and he was shy and cautious, fearing to intrude on her solitude, which daunted him as did the strangeness of the Grove itself. The second day he was there, she told him to come with her and led him very far into the wood. They walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves did not stir. The aisles of the trees were endlessly different and all the same. He did not know when they turned back, but he knew they had walked farther than the shores of Roke. With raised sides boomed with laughter. People were being amused, but what was amusing them -- glass, and inside the semitransparent material swarms of fireflies circulated freely, sometimes future, his own life, his whole life, in his arms. "I didn't know what I was doing," he said. "Sometimes it worked, sometimes it didn't." "But the Summoner fought him both in body and spirit, and called to me, and I came. Together we flashing beat of the galley oars, for the sails of his ships coming to punish these people and there; but those people were unnaturally tall -- and all at once I realized that what I had in front of. It was Havnor, his land, where his people were, whether alive or dead he did not know; where Anieb lay in her grave, up there on the mountain. He had never been back, never come this close. It had been how long? Sixteen years, seventeen years. Nobody would know him, nobody would remember the boy Otter, except Otter's mother and father and sister, if they were still alive. And surely there were people of the Hand in the Great Port. Though he had not

"Straining," Heleth said, his hand still absently, gently patting the dirt as one might pat a scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?" "Yes -".The heat of the day was beginning to lessen and the shadows of the Grove lay across the grass, though the Otter's House was still in sunlight. Kurremkarmerruk sat on the bench with his back against the house wall, and Azver on the doorstep..Religion was a unifying element even among the most warlike tribes. There were hundreds of Truce Places on the Four Lands, where no warfare or dispute was permitted. Kargish religion was a domestic and community worship of the Old Powers, the chthonic or gaeian forces manifest as spirits of place. They were worshiped at the site and at home altars with offerings of flowers, oil, food, dances, races, sacrifices, carvings, songs, music, and silence. Worship was both casual and ritual, private and communal. There was no priesthood; any adult could perform the ceremonies and teach children to do so. This ancient spiritual practice has continued, unofficially and sometimes in hiding, under the newer, institutional religions of the Twin Gods and the Godking.. "Anywhere.
