The spoken name of a True Rune may be the word it signifies in the Old Speech, or it may be one of the connotations of the rune translated into Hardic. The names of commonly used runes such as Pirr (used to protect from fire, wind, and madness), Sifl ("speed well"), Simn ("work well") are used without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such well-known, often used names with caution, since they are in fact words in the Old Speech, and may influence events in unintended or unexpected ways. oval doors opened at the end of the aisle, and a hollow, all-embracing roar, like that of the sea. He had seen poor men pay. Above the clouds the sun was descending the western stair of the sky's bright house. Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay. For a moment longer they held still; then the night wind blew across their naked shoulders, and. Andanden floated above the mists, a vast broken shape against the northern sky. "Dragons have been seen flying above the Inmost Sea. Roke has no Archmage, and the islands no true-crowned king. There is real work to do," the Summoner said, and his voice too was like stone, cold and heavy. "When will we do it?" In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost. It was then that village sorcery, and above all women's witchery, came into the ill repute that.
