Colman frowned and shook his head with a sigh as he thought about it. "But surely they wouldn't just hit it without any warning to anyone-not with all those people still up there," he insisted. "Wouldn't they say something first.. let Stern know what he's up against?". "Yeah, I heard that somewhere," Leilani replied, picking up her fork..rassed. "If you must know, I like working cards." "You mean tricks?" Shirley seemed interested. "I can do tricks, sure." "Are you good?". "I'm not sure," Kalens replied distantly. Trying to elucidate Stern's motives is akin to peeling an onion. But when you think it through, if there's no resistance, we win automatically, and if there is, then the Chironians will be forced to make the first moves, which gives us both a free hand to respond and a clear-cut justification that will satisfy our own people . . . which' is doubly important with the elections coming up. So really you have to agree, John, the scheme does have considerable merit.". "I told him to stuff it. It's over. We can be us now. Therefore I'm better than you.' That's what it's all about.".They entered the cafeteria, which was fairly busy since it was around midday, and sat by a window overlooking a parking area for flyers, beyond which lay a highway flanking the near bank of the river. A screen at one end of the table provided an illustrated menu and a recitation of the chefs recommendations for the day, and Juanita dictated their orders to it. Veronica could always be relied upon to move out for an evening on short notice, and Colman had wondered at times if she really existed. Acquiring exclusive access to a studio wouldn't have been all that difficult for a VIP'S wife, even with the accommodation limitations of the Mayflower H. Through the meal Sterm talked about Earth and the voyage, and Celia had found herself following his lead, leaving him the initiative of broaching the subject of her visit. Finally, "Tell it to Merrick," Fallows said, making an effort not to show the disapproval that he felt. Talking that way betrayed a sloppy attitude toward engineering. Even if they had only three weeks to go, there would still be no excuse not to fix a piece of equipment that needed fixing. The risk of catastrophic failure might have been vanishingly small, but it was present. Good practice lay with reducing possibilities like that to zero. He considered himself a competent engineer, and that meant being meticulous. Walters had a habit of being lax about some things--small things, admittedly, but laxness was still laxness. To be ranked equally irked Fallows. "Log change of watch duty, Horace," he said to the grille on the console. "Officer Fallows." "I made no mention of taking over anything. I'm merely saying we should be sufficiently familiar with their operations in be able to guarantee service if we are required to. Now that we've had an opportunity to look at Post Norday and a few other installations, I am reasonably confident we could manage them. I didn't want to take up too much of everybody's time before, but since the her face.." "An expert on ladies in need of stimulating entertainment, perhaps?" "Does he expect you tonight?" Sterm inquired curiously, although Celia couldn't avoid a feeling that he already knew the answer. She shook her head. "Where are you supposed to be?". Chapter 15. "On the contrary, Mr. Sterm, they understand the same language that people everywhere speak," Chester said. "We will deal with them in the same way that we have already dealt with you." .MEXICO. On the front, the word STARCHILD was emblazoned in two-inch red letters.. "What sort of baking does your mother do?" Geneva asked.. Engine screaming, klaxons shrieking, lights flashing as though with the fury of dragon eyes, the Peterbilt. "Stop this now," Borftein advised grimly. "How much of the Army do you think will follow you?". Later that evening Bernard returned home from the shuttle base to find Jerry Pernak there. Pernak explained over dinner that he had reconsidered his opposition to Lechat's Separatist policy. He had heard from Eve that Jean was involved actively, wondered if Bernard was too, and wanted to cooperate.. with any analytic passion? why he felt obliged to slander himself.. Geneva left the door half open behind her. She sat on the edge of the bed, sideways to her niece.. Face to the sun, eyes closed, striving to empty her mind of all thought, yet troubled by insistent.. Maybe they aren't sure if he's his mother's son or some other woman's child. Maybe he could fake them. "You'd be welcome to come too if you want," Rastus said.. "Aren't the boarding gates being checked?" Colman murmured, surprised.. Colman nodded. "Sure. They're selected and trained to obey orders and not ask questions. Some of them would shoot their own mothers if the right person said so. And Stormbel was in on it. It fits." He thought for a second longer, and then looked at Lechat and Bernard. "There were a lot of suspicious things about Padawski breaking out too. It couldn't have happened the way it did without inside help. A lot of us have been thinking it was a setup to bait the Chironians into hitting back." . Sighing, Micky got up to retrieve a second beer from the refrigerator.. "Your comparison is quite invalid," a girl who was with the boy pointed out. "There are ample reasons, verified by universally corroborated experimental results, for postulating that entities possessing the properties ascribed to atoms do indeed exist. Whether or not they are detectable by the senses directly is immaterial. Where are your comparable data?". Although Mother.. waglessly and with caution, past the dining nook, paw by stealthy paw, pussyfooting as silently as any.. also left with a vague uneasiness. Like a quick dark fish, some disturbing half-glimpsed truth had seemed.. Suddenly, Imm the outer entrance to the foyer behind Hanlon, a firm, authoritative voice ordered, "Stop that!" The sergeant looked up from the panel just as he was about to place the call, and his jaw dropped open in astonishment. Borftein was striding forward toward the desk with Wellesley on one side of him, Lechat on the other, and a squad of soldiers in tight formation bringing up the rear. Celia and Malloy were between them. The two SD guards glanced uncertainly at each other.. Now they are gone into the night, either unaware that they have passed within feet of him? or alert to his. "Some human beings are mean enough without crocodile blood in their veins," Geneva said.. He hesitates on the threshold, troubled by both the risk that he's taking and the crime he's intending to.. Celia's eyes opened wide. "You're kidding!". A party was thrown in the Bowery that night to celebrate the Mayflower Its safe arrival and the end of the voyage. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way.. If warehouse decor favored red light, as reputed, then this atmosphere was holier suited to a prostitute. "We're listening," Otto replied tonelessly.. Jesus, he thought, he was sick of the system. It went back a lot longer than twenty years, for what was the Mayflower II but an extension of the same system he'd been trying to, get away from all his life? lay was beginning to feel the trap

closing around him already. And none of it was going to change--ever. Chiron wasn't going to be the way out that Colman had hoped for when he volunteered at nineteen. They had brought the system with them, and Chiron was going to be made just another part of it..some demented children's book?The Little Snake that Could?then she was screwed..than ever it had gone when he and the dog had ridden in the back of it among horse blankets and.so hard that in a spirit of repentance, she must have wanted to fire up the pain in her arthritic knuckles.."We'll have to keep the unit intact in case there's a showdown," Sirocco murmured. "And I suppose we'll have to play along with Stormbel for the time being if we want to be free to move." He turned away and moved toward the far wall to think silently for a few moments longer, then wheeled about and nodded. "Okay. Bret, you have to leave for the base right away. Just hope that that Veronica comes off that shuttle, and use your own initiative to get her out. That's all you have to worry about so, on your way." Hanlon nodded and disappeared back through the Orderly Room. "Steve," Sirocco said. "Pick anyone you want to send to Franklin, and wet just have to leave the rest of that side of things to Kath. You vanish when you've done that, and do whatever you have to do to get Celia out and over to the Fallowses' place. When you've collected the other two people from there, take them all to the post between the north checkpoint and the rear of the construction site by the freight yard. Maddock's section will be manning that sector from midnight to 0400. They know how to distract the SDs, and I'll make sure they're expecting you." Colman nodded and tuned to follow in the direction which Hanlon had gone. "Oh, and Steve," Sirocco called as a new thought struck him. Colman stopped at the door and looked back. "You say you know Fallows fairly well?" "Is she a friend of yours?" Kath inquired..track him down myself." "That's so completely radical!" In the gathering shadows that darkened but didn't.Colman hesitated for a split second to let the question ask itself. "So...?".Driscoll couldn't buy that. "You mean they'd be just as happy doing what our people told them to?" he said..He can only imagine the daunting quantity of energy required to be Donella, the waitress whose.."Really? Who?" Colman asked..mother anywhere..". "Well, he must have been there somewhere, mustn't he?".Farnhill looked uneasy and seemed a trifle awkward. "Well, as far as I could gather, a woman known as Kath seems to be in charge of a lot of it . . . as much as anybody's in charge of anything in this place. I haven't actually met her though..". "It could still detach, even without Sterm". "It's true," Leilani said, correctly reading the looks that the women exchanged. "We've only lived beside..taken from the open cooler behind him..Celia's suggestion for including Borftein and Wellesley was still undeniably attractive, but none of the ideas advanced for freeing them had stood up to close analysis because the prisoners were being held in rooms guarded constantly by two armed and alert SD's stationed halfway along a wide, brightly lit corridor with no way to approach them before they would be able to raise the alarm. Sirocco had therefore left that side of things in abeyance for the time being..Micky shrugged..Once, when an outlaw mouse scurried from room to room and along hallways, eluding a comic posse of..The discussion continued for a while longer..without making any further headway, but Kalens seemed more thoughtful and less insistent. Eventually the others left, and Fulmire sat for a long time staring with a troubled expression at his desk. At last he activated the terminal by his chair, which he had switched off earlier in response to Kalens's request for "one or two informal opinions that I would rather not be committed to record..". In fact, suitcases were open on a bench at the foot of..Bernard fell silent for a few seconds. "Kath has to know something about it, or at least she must know people who do," he said. "After all, there aren't billions of people on Chiron. And Jerry said that she has. a lot to do with the people working on the antimatter project at the university. Let's start with her..".After walking another mile, he came to the all-night market that he'd specified for the rendezvous..her nook was a private place. But the snake won't allow even a pretense of privacy. She'll have no..Getting inside would therefore require some men being moved right up to at least one of the security points without arousing suspicion-armed men at that, since they would be facing armed guards and could hardly be sent in defenseless. Malloy had again discouraged ideas of attempting to impersonate SD's. The only alternative came from Armley-a bluff, backed up with information manufactured by Stanislaw, to the effect that regular troops were being posted to guard duties inside the complex as well as SD's, and providing reliefs from D Company. Obviously the plan had its risks, but making three separate attempts at the three entrances simultaneously would improve the chances, and it was a way of getting the right people near enough. In the end, Sirocco agreed. Once they got that far it would be a case of playing it by ear from there on, and the biggest danger would be that of SD reinforcements arriving from the guardroom behind the main doors of the Government Center complex, which was just a few hundred feet away on the same level, before the situation was under control. That was the part that Bernard Fallows had come along to handle..She worked slowly, methodically, taking satisfaction from the care that she provided. In spite of the.."By your customs," the Chironian observed..Aunt Geneva's aged house trailer looked like a giant oven built for the roasting of whole cows, in.."News?" Lechat looked up, puzzled. "When? We've been here for the last hour. There wasn't anything special then..".The screen before him suddenly came to life to show her face. A flicker of surprise danced in her eyes for the merest fraction of a second, and then gave way to a smoldering twinkle of anticipation mixed with a dash of amusement..distinction didn't matter as much to her as did the discovery that she, like Sinsemilla, could lose control of..Paul Lechat raised the Separatism issue again and looked for a while as if he would carry a majority as commercial lobbyists defected from the Kalens camp. But the timing of the moment was not in Lechat's favor, and Borftein torpedoed the motion fresh off the launching ramp. with a scathing depiction of them all allowing themselves to be chased off across the planet like beggars from somebody's back door. Ramisson, who had been heading the movement for unobstructed integration into the Chironian system, lodged a plea for restraint, but it was obvious that he knew the mood was against him and he was speaking more to

satisfy the expectations of his followers than from any conviction that he might influence anything. The assembly listened dutifully and took no notice..MRS. GRAYFORD, THE plump, extravagantly dressed wife of Vice-Admiral Crawford, Slessor's second-in-command of the Mayflower H's crew, closed the box containing her new set of Chironian silver cutlery and added it to the pile of boxes on the table by her chair. Among other things the jumble included some exquisite jewelry, an inlaid chest of miniature, satin-lined drawers to accommodate them, a set of matching animal sculptures in something not unlike onyx, and a Chironian fur stole. "Where we'll end up living, I've no idea, but I'm sure these will enhance the surroundings wherever it is. Don't you think the silver is delightful? I'd never have thought that such unusual, modern styling could have such a feel of antique quality, would you? I must return to that place the next time I go down to Franklin. Some of the tableware there went with it perfectly." Micky wasn't surprised to find herself returning the wave. After a week with Geneva, she'd already cheeseburgers at the truck stop. Soon after the truck began to roll, he'd eaten one sandwich and fed the. Popping open a Budweiser, Micky returned to her chair. "Aunt Gen, this sensitive junkie from Chicago .." At least we don't give out orders for other people to take our risks for us," Nanook said, speaking quietly to calm the atmosphere. Juanita was staring to get emotional. "The people who take the risks are the ones who believe it's
