The.Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up.him I'd retire" he said. I was numb from the strain of trying not to do anything wrong. This, for four days."There," Anieb said. She pointed at the mountain and smiled. She looked at her companion, then slowly down at the ground. She sank down kneeling. He knelt with her, tried to support her, but she slid down in his arms. He tried to keep her head at least from the mud of the track. Her limbs and face twitched, her teeth chattered. He held her close against him, trying to warm her..had not come from Roke to trudge about on foot in the mud and dust of country byways..forgiveness, and must learn what follows on transgression." .here, Irian, you do us and yourself harm. She thought that he looked.Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, on the edge of twilight, a low wall of stones. And as he looked he thought he saw a woman walking along beside the wall, very thin, insubstantial, bone, shadow. But she was not the dying woman in the bed. She was Anieb..will be yours," he said, with an open laugh, so that Losen stared at him in a kind of horror.. "I'm never cold," she said. "It was him."The one with a voice like a deep-toned bell looked at her too, and spoke to her with a plain, kind severity. "As I see it, the man who brought you here meant to do harm, but you do not. Yet being here, Irian, you do us and yourself harm. Everything not in its own place does harm. A note sung, however well sung, wrecks the tune it isn't part of. Women teach women. Witches learn their craft from other witches and from sorcerers, not from wizards. What we teach here is in a language not for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But they are true laws, founded not on what we want, but on what is. The just and the unjust, the foolish and the wise, all must obey them, or waste life and come to grief."."The password he will ask you for is your true name."there maybe a room above the tavern?"That would be unwise," he said, with a good imitation of the Master Changer's terse solemnity. Standing up! Hasn't stood for years. Shouting.Irian stood silent too, but her hope sank down, replaced by a sense of shame and utter insignificance. These were brave, wise men, seeking to save what they loved, but they did not know how to do it. And she had no share in their wisdom, no part in their decisions. She drew away from them, and they did not notice. She walked on, going towards the Thwilburn where it ran out of the wood over a little fall of boulders. The water was bright in the morning sunlight and made a happy noise. She wanted to cry but she had never been good at crying. She stood and watched the water, and her shame turned slowly into anger..and waft them over the sea in a magic boat flying before the magewind. But when he told her they'd."I'm not a col. . ." I began. She leaned on the table with her elbows and moved her hand.Dulse knew better than to ask for explanation. The need to speak such a spell could not come often; the chance of his ever having to use it was very slight. He let the terrible spell sink down in his mind and be hidden and layered over with a thousand useful or beautiful or enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years, like the cornerstone of an earlier, forgotten house down in the cellar of a mansion full of lights and treasures and children..Though like any power they could be perverted to evil use in the service of ambition (as was the Terrenon Stone in Osskil), the Old Powers were inherently sacral and pre-ethical. During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such. Only the Patterners, who lived all their lives in the Grove, served to link human arts and acts to the older sacredness of the earth, reminding the wizards and mages that their power was not theirs, but lent to them."I can build boats, or mend them, and sail them. I can find,

above and under ground. I can work weather, if you have any need of that. And I'll learn the art from any who will teach me." Gelluk was almost wholly absorbed in his own vision, but since Otter's mind and his were connected, he saw something of what Otter saw. He stopped, gripping Otter's arm. His hand shook with eagerness..all the world to come to him-which was true. Maybe that's where the danger of that art lies..They would ask all the other Masters to meet with them in the Grove. "But he won't come," Deyala."It isn't the same kind of thing..won't as can't. I thought of making plugs in the planking of that galley, near the keel-you know..amount to much that I can see. As the sun neared the western plains, they stopped at a farmhouse that offered stabling for the horses, a shed for the cart, and straw in the stable loft for the carters. The loft was dark and stuffy and the straw musty. Ivory felt no lust at all, though Dragonfly lay not three feet from him. She had played the man so thoroughly all day that she had half-convinced even him. Maybe she'll fool the old men after all! he thought, and grinned at the thought, and slept..border of stone, old, covered with a yellowish lichen, and there I felt, at last, a real wind, clean, own. He had always loved her..I had the urge to tear from the wall the microphone that was inclined with such solicitude.."Whom do you serve?" asked the shorter and younger of the women, speaking for the first time. She had a keen, hard face, with long black brows.."I know you don't.."what I mean by plugs? They'd work out as the timbers work when she gets in a heavy sea." All over the hill spark-weed was in flower, its long petals.."Oh," she said with a full mouth, "I didn't know how hungry I was!".."Go to Roke," the wizard said. But we don't live in..There were other people on the hill, he saw now, many others, men and women, children, living and spirits of the dead; many, many of them. He was terrified of them and cowered, trying to make a spell that would hide him from them all..He smiled again. Her hands fell slowly..He came through the halls and stone corridors to the inmost place, the marble-paved courtyard of the fountain, where the tree Elehal had planted now stood tall, its berries reddening.."When he gets himself a girl," Golden said, in answer to whatever it was she had been saying, "he'll be all squared away. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..about Roke and did not answer when he spoke. A few wizards had crossed his path strong enough to make him wary of them, but he had never known one with skill and power equal to his own..After Golden had gone out, she found her son in the counting-room going through ledgers. She looked at the pages. Long, long lists of names and numbers, debts and credits, profits and losses..She brought them to a house at the end of a lane. It had been a handsome place once, two stories built of stone, but was half empty, defaced, window frames and facing stones pulled out of it. They crossed a courtyard with a well in it. She knocked at a side door, and a girl opened it..said, "Let us have the witch.". "What will you have us call you?".He had turned up on Dulse's doorstep a few years ago. Well, no, twenty years ago it must be, or twenty-five. A while ago now. He had been truly a boy then, long-legged, rough-haired, soft-faced, with a set mouth and clear eyes. "What do you want?" the wizard had asked, knowing what he wanted, what they all wanted, and keeping his eyes from those clear eyes. He was a good teacher, the best on Gont, he knew that. But he was tired of teaching, and didn't want another prentice underfoot, and sensed danger.. "Not till you'd come to Oraby, a ten-twelve miles on south." She considered only briefly.
