The most widely used dating system in the Archipelago, which stems from the Havnorian Tale, makes the year Morred took the throne the first year of history. By this system, "present time" in the account you are reading is the Archipelagan year 1058. It isn't me. I still don't know who I am. I'm not Irian!" She fell silent abruptly, having spoken down the Inmost Sea to Roke. "If you share his power he won't harm you. He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. It was a bright, misty morning, the marshes hidden by gleaming vapors. Andanden floated above the mists, a vast broken shape against the northern sky. There were other people on the hill, he saw now, many others, men and women, children, living and spirits of the dead; many, many of them. He was terrified of them and cowered, trying to make a spell that would hide him from them all. He looked at her and said nothing. After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the Eldest, brought Ged and Lebannen to Roke Island. One morning one of Alder's cowboys turned up in the front yard riding a horse and leading a. Her eyes were wild. He left her at the corner of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall.
