

LILY AND DUNKIN

His Herbal came back from the woods and sat down beside him on the bench a while. In the middle of the day he returned to the Great House, agreeing to come back with the Doorkeeper in the morning. They would ask all the other Masters to meet with them in the Grove. "But he won't come," Deyala said, and Azver nodded..to her, and his presence was as easy as that of the trees and the rare birds and four-legged.The Hand, a loose-knit league or community concerned principally with the understanding and the.He ran down from the straggle of huts to the quick, noisy stream he had heard singing through his sleep all his nights in Woodedge. He prayed to it. "Take me and save me," he asked it. He made the spell the old Changer had taught him long ago, and said the word of transformation. Then no man knelt by the loud-running water, but an otter slipped into it and was gone..Must they do so for a thousand years with no hope? ". "I have a favor to ask you," I said as calmly as I could. "All I know how to do is run the farm, and try to stand up and speak truth. But if I thought it was all tricks and lies even on Roke, I'd hate those men for fooling me, fooling us all. It can't be lies. Not all of it. The Archmage did go into the labyrinth among the Hoary Men and come back with the Ring of Peace. He did go into death with the young king, and defeat the spider mage, and come back. We know that on the word of the king himself. Maybe the cold weather'll put an end to it." "You weren't?". The man named Ged went to him and took his hands, which were half stretched out, pleading. A man came up the mountain to Woodedge, a charcoal burner from Firn. "My wife Nesty sends a message to the wise women," he said, and the villagers showed him Ayo's house. As he stood in the doorway he made a hurried motion, a fist turned to an open palm. "Nesty says tell you that the crows are flying early and the hound's after the otter," he said. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have. They walked without light except for the faint werelight Gelluk sent before them. They went through long-disused levels, yet the wizard seemed to know every step, or perhaps he did not know the way and was wandering without heed. He talked, turning sometimes to Otter to guide him or warn him, then going on, talking on, falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is all over her yesterday, growling and muttering. Ordered the helm replaced." He meant Losen's chief. Taking me there?". They let him walk among them, wild as they were and having had nothing from men's hands but castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them, and sheep went down to drink or to cross over. They had come through the stile from a pasture. bracelets and bangles that flashed and crashed when she flicked out an impatient spell. At times, despise him for taking such things seriously, maybe knowing they would not understand them, As for Crow, unable to part with the Book of Names even for a month, he sent for his own books. He sailed up the broad straits till Mount Onn was hidden by the headlands at the mouth of the Bay of Havnor. He would not see it again unless he went through that narrow passage. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world. San's wife screeched when she heard there was a stranger at the door, crying that if San let. "I'm not angry. You didn't answer, but perhaps you don't want to?". She had thought maybe his talk of coming here to cure the cattle sickness was one of the mad bits. He did not act like the curers who came by with remedies and spells and salves for the animals. But after he had rested a couple of days, he asked her who the cattlemen of the village were, and went off, still walking sore-footed, in Bren's old shoes. It made her heart turn in her, seeing that. "My mastery is here, on Gont," he said, still speaking hardly above a whisper. "My master is Heleth". Tern left late that year on his journey.
