They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles..All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary.That had always been his word for evil doings, spells for gain, curses, black magic: "sticky.They met in the lane under Iria Hill in the dark of night, long after sunset, long before dawn. Rose made a dim glow of werelight so that they could find their way through the marshy ground around the spring without falling in a sinkhole among the reeds. In the cold darkness under a few stars and the black curve of the hill, they stripped and waded into the shallow water, their feet sinking deep in velvet mud. The witch touched the girl's hand, saying, "I take your name, child. You are no child. You have no name."He was still shaken, appalled, by the ease with which Gelluk had forced him to say his name, which gave the wizard immediate and ultimate power over him. Now he had no hope of resisting Gelluk in any way. That night he had been in utter despair. But then Anieb had come into his mind: come of her own will, by her own means. He could not summon her, could not even think of her, and would not have dared to do so, since Gelluk knew his name. But she came, even when he was with the wizard, not in apparition but as a presence in his mind.."To Roke?" .about Roke Knoll. He was always a little reluctant to enter the witch's house, a pungent, disorderly place thick with the mysteries of women and witchcraft, very different from his own clean comfortable home, even more different from the cold austerity of the wizard's house. He shivered like a horse as he stood there, too tall for the herb-festooned rafters. But San and his wife and the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping afoot, then?" "So far as we can see, they are. And no new sickenings." "He's a true sorcerer, Tawny," Gift said, very earnest. "I know it." "That's the trouble, love," said Tawny. "And you know it! This is no place for a man like that. Whoever he is, is none of our business, but why did he come here, is what you have to ask." "To cure the beasts," Gift said..stream had chilled him to the bone, and he was shivering..had bequeathed him. Otter dared not try to summon her..He left her at the comer of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall. He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. She walked up the street and stood before the door. She looked back then, but he was gone..Hemlock was 10th to practice any of the lesser arts of magic. the town, but there never was one that went eastward. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he went by. Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face. A city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey looked at him kindly..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (94 of 111) [2/5/2004 12:33:31 AM]."Crafty men need to stick together," he said. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world..raiding ships even as far as the Inmost Sea.
