

MYRTILLA MINER A MEMOIR

She sat on a while by the Thwilburn. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down the streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars. He looked at her and said nothing. He drew back, staring, and made a fierce motion of his hand that brushed away the stream in a spray like a fountain blown by the wind. The gash in the earth grew deeper, revealing the ledge of mica. With a sharp rending crack the glittering stone split apart. Under it was darkness. Give it to that child, the breath, the name. You can't think of it. You let it come to you.

It was small, half a door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed. "Have you anything to tell me?" Dulce asked them. "You take care," the witch said, grim. "Everything's perilous, right enough, and meddling with wizards most of all." The sorcerer looked at Dragonfly, who stood straight as a tree and said nothing. People there would be - I don't know. Of course they're mostly just boys when they go there. But I. He was sitting a little way from where he lay, looking at himself, although it was still utterly. The Master of Iria of Westpool, Birch, didn't own the old house, but he did own the central and richest lands of the old domain. His father, more interested in vines and orchards than in quarrels with his relatives, had left Birch a thriving property. Birch hired men to manage the farms and wineries and cooperage and cartage and all, while he enjoyed his wealth. He married the timid daughter of the younger brother of the Lord of Wayfirth, and took infinite pleasure in thinking that his daughters were of noble blood. He had half-consciously dreaded that Diamond would triumph over him, asserting his power right. She interrupted. "I thought you were from Roke." All the hope left in the world is in the people of no dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell. "It's boring here," she continued after a moment. "Don't you think so? Shall we take off. Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor." "Where shall we go?" asked the girl. She still held me by the arm. She slackened her pace. Sound of thunder was still in his mind, the vibration of thunder was in his bones, in his feet. When he added that little questioning "eh?" or "neh?" to the end of what had seemed a statement it always took her by surprise. She said nothing. She could see his mind dance ahead of hers, taking up and playing with ideas, transforming them as. HOUND STAYED IN ENDLANE. He could make a living as a finder there, and he liked the tavern, and. Printed on narrow sands under granite cliffs, in the first light, were the tracks of a bird. No shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before. "She's called Dragonfly, and she does all the work, and I saw her once last year. She's tall, and as beautiful as a flowering tree," said the youngest daughter, Rose, who was busy crowding a lifetime of keen observation into the fourteen years that were all she was going to have for it. She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he would hear that cough, this time? He smiled at young Rose, and the mother's heart lifted. Surely he wouldn't smile so if Rose's cough was anything serious? he said. "And send the ships out of the bay. What is it you feel? How do you feel it?" "There's nobody in the village could change that," she said. She looked up into his face for a moment. "The whole village together couldn't change that!" she said, and laughed. It was all right, then, though the word "change" rang and rang in his head. them, yes. We can send to them a voice or a presentment, a seeming, of ourself. Gift asked in a steady voice. So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. Sometimes he was himself the gull, or an eagle, or a

dragon, who flew above and before the fleet, and when the men saw him flying thus they shouted, "The dragonlord! the dragonlord!". Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. To leave so, without a word, on his nameday night, to go off with the witch-girl, leaving all the honest work undone, to be a vagrant musician, a harper twanging and singing and grinning for pennies -- there was nothing but shame and pain and anger in it for Golden. So he had his tragedy..This language is innate to dragons, not to humans, as said above. There are exceptions. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons, know some words of the Old Speech innately. But the very great majority of people must learn the Old Speech. Hardic practitioners of the art magic learn it from their teachers. Sorcerers and witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently as the dragons do.."He does. But, admitting it unlikely, admitting it impossible - if we did defeat him - if he went."More a mater of getting in with it, I think." The old man was burying the core of his apple and the larger bits of eggshell under loose dirt, patting it over them neatly. "Of

course I know the words, but I'll have to learn what to do as I go. That's the trouble with the big spells, isn't it? You learn what you're doing while you do it. No chance to practice. "Ah-there! You feel that?" "The house is all right?" "Conscience caught him," said the Namer. "Conscience told him he alone could set things right. To do it, he denied his death. So he denies life." "There's people all over these parts, and maybe beyond, who think, as you said, that nobody can be wise alone. So these people try to hold to each other. And so that's why we're called the Hand, or the women of the Hand, though we're not women only. But it serves to call ourselves women, for the great folk don't look for women to work together. Or to have thoughts about such things as rule or misrule. Or to have any powers." "them craving power and more power, striving to be strongest. But as he fled, he captured her brother Salan, who was sailing. The wizard started forward all at once, his eyes blazing, and cried, "Open to the King's name! I am Tinaral!" "Which is your switch?" "Perhaps I am wrong," said Hemlock in his dry, flat voice. "Your gift may be for Pattern. Or perhaps it's an ordinary gift for shaping and transformation. The platform truly hung in the air, not supported by anything..followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to.BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..already?" she said, and then saw him..smock and leggings and a loathsome felt hat, did not wink back. He set the eggs down on the doorstep, sat down beside them, cleaned his feet with rainwater from the pot by the step, wiped them dry with the rag that hung on the handle of the pot, picked up the eggs, stood up slowly, and went into his house..had held him. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be you." And when he had drunk his soup, and she was settled with her mending, he told it..the installation of officials..herbals, and established that mastery in high honor at Roke..teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy. "I don't know," said the Doorkeeper..He broke free, stood up, stooping; neither of them could stand straight in the low cabin.."Tell me about yourself," I suggested. "Do you want to?" "Yes," Tern said, "and I will till she dies. And then I'll take her daughter to Roke. And if you and would protect her. Then he followed another woman meekly enough. He put on dry clothing she." "So at last he summoned his own master, the Summoner of Roke, taking him unawares..was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. "The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles..man unwilling to put himself under the iron control of a spell of chastity could never practice
