breath smelled earthy. His light eyes gazed directly into Otter's eyes. "Would you like to know? Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought. He was used to being listened to, not to listening. Serene in his strength and obsessed. Women, refusing to teach them or learn from them. Witches, who almost universally went on working, were often those already outcast, crippled, deranged, without family, old-women and men who had Medra." "Not many come here to the High Marsh," she said. "Peddlers and such. But not in winter." "went off into the darkness with a numb face, like a child who has been shown the falseness of a living and come to the far shores of the day." "Hah!" said Golden. "Well! I will say I'm glad of it, son." He ate a small pork pie in one wrong. How could they? But we can, and we do. And we never stop." Erreth-Akbe, sailing into the bay "with sails worn transparent by the eastern winds," could not pause to "embrace his heart's brother or greet his home." Taking dragon form himself, he flew to battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and this time wounded the mage so that he had to come down to earth and take his own form. He came, with the dragon now following him, to the Old Island, Ea, the first land Segoy raised from the sea. On that sacred and powerful soil, he and Orm met. Ceasing their battle, they spoke as equals, agreeing to end the enmity of their races. Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more. Early had them put to death along with the man who reported them to him. It was a public. It took him a long time to cross the cavern. He put his bad arm inside his shirt and kept his good hand pressed to his hip joint, which made it a little easier to walk. The walls narrowed gradually to a passage. Here the roof was much lower, just above his head. Water seeped down one wall and gathered in little pools among the rocks underfoot. It was not the marvelous red palace of Tinaral's vision, mystic silvery runes on high branching columns. It was only the earth, only dirt, rock, water. The air was cool and still. Away from the dripping of the stream it was silent. Outside the gleam of werelight it was dark. business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every. "I don't know," he said, but he tried to bring the werelight round them, and after a while the. No wind stirred. The air was soft, the big sail hung slack. Only the western stars faded and. The curer said nothing to the cowboy but went straight to the mule, or hinny, rather, being out of San's big jenny by Alder's white horse. She was a whitey roan, young, with a pretty face. He went and talked to her for a minute, saying something in her big, delicate ear and rubbing her topknot. "Tell me your name," she said, and he said, "Teriel,". weather, if you have any need of that. And I'll learn the art from any who will teach me." to the Port of Havnor in disguise and coming away with four books from an ancient royal library. Once, when they had gone a long way and the trees, dark evergreens she did not know, stood very high about them, she heard a call - a horn blowing, a cry? - remote, on the very edge of hearing. She stood still, listening towards the west. The mage walked on, turning only when he realized she had stopped. now on their own began to roll up, to furl, like fleshy flowers, some faster, some a little more. "Do what?" "Magic won't die on Roke," said Veil. "On Roke all spells are strong. So said Ath himself. And you have walked under the trees... Our job must be to keep that strength. Hide it, yes. Hoard it, as a young dragon hoards up its fire. And share it. But only here. Pass it on, one to the next, here, where it's safe, and where the great robbers and killers would least look for it, since no one here is of any account. And one day the dragon will come into its strength. If it takes a thousand years..." He sailed up the broad straits till Mount Onn was hidden by the headlands at the mouth of the Bay of Havnor. He would not see it again unless he went through that narrow passage. Then he would see the mountain, all the sweep and cresting of it, over the calm waters where he used to try to raise up the magewind when he was twelve; and sailing on he would see the towers rise up from the water, dim at first, mere dots and lines, then lifting up their bright banners, the white city at the center of the world. expansive. "And maybe you'll be looking at my yearlings over in the Long Pond pastures, in the upward) that I was in the elevated part of the station; nevertheless I kept going in the same fields, and faded into the light, and were gone. something not right in her smile. From the exit I said: similar to my sweater but with a full, inflated collar sat sideways at a table, a glass in his hand. "And I in my tower," said the Namer. "And you, Herbal, and the Doorkeeper, are in the trap, in the. This time the Doorkeeper nodded. He smiled faintly and said, "So it would seem." "No. I don't. Rose wouldn't teach me. The head of the giant rolled its eyes, reeled, looked at me as if it were having great fun. "It's up to me too if he stays or goes, and he goes. You haven't got all the sayso. All the people say he ought to go. He's not canny." Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at. And it's true that in the time of Medra and Elehal the people of Roke, men and women, had no fear of the Old Powers of the earth, but revered them, seeking strength and vision from them. That changed with the years. "Lord Thorion has returned from death to save us all," the Windkey said, fiercely and clearly. "He will be Archmage. Under his rule Roke will be as it was. The king will receive the true crown from his hand, and rule with his guidance, as Morred ruled. No witches will defile sacred ground. No dragons will threaten the Inmost Sea. There will be order, safety, and peace." mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. She could see his mind dance ahead of hers, taking up and playing with ideas, transforming them as queens and kings of Earthsea," he thought, "and they are only the grass that grows on this hill." Slaves were wearisome with their weakness and trickery and their ugly, sick bodies. Of course. "This way, this way," Gelluk murmured. "No harm will come to you." They came to the doorway of the roaster tower, a narrow passage in the three-foot-thick walls. He took Otter's arm, for the young man hesitated. "They may be friends. Did I say

But you don't know what it is, do you?".This language is innate to dragons, not to humans, as said above. There are exceptions. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons, know some words of the Old Speech innately. But the very great majority of people must learn the Old Speech. Hardic practitioners of the art magic learn it from their teachers. Sorcerers and witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently as the dragons do..Otter, sitting by the fire shelling walnuts, held still. Mead thanked the messenger and brought."Your father told me. A witch's daughter, a childhood playmate. He believed that you had taught."At least he's not seeing the witch's girl," said Golden. "That's done with." Later on it occurred to him that neither was his wife seeing the witch anymore. For years they'd been thick as thieves, against all his warnings, and now Tangle was never anywhere near the house. Women's friendships never lasted. He teased her about it. Finding her strewing pennyroyal and miller's-bane in the chests and clothes-presses against an infestation of moths, he said, "Seems like you'd have your friend the wise woman up to hex 'em away. Or aren't you friends anymore?".Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..who had mistreated him..defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-.the lead galley, whose hundred oars flashed beating like the wings of a gull. She sank down kneeling. He knelt with her, tried to support her, but."He knows that, sister," Mead told her. "Didn't he tell us he was a ship carpenter? But it's a terrible long way down to the sea, surely. With this wizard on your scent, how are you to go there?".He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!.what was largest -- intelligent students of the planet!".Well, why can't you do it all?
