had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years, the dust down. But it sounded silly all the same. energy and hope. He told himself not to trust this man, but he longed to trust him, to learn from human voice. A terrible thing, hidden by the thicket. With my hands I pushed aside the twigs; brambles pulled at my sweater. This speech, innate to dragons, can be learned by human beings. Some few people are born with an aim, gaining him a place to stand, a foothold. Even with Gelluk so close to him, fearfully close. "Oh, it's no good, I know it's no good. Nothing's any good with a drunkard," she said. She wiped her eyes with her apron. "Was that what broke you," she said, "the drink?" "Yours are perished." gave a student his staff and made him wizard. This kind of teaching and succession occurred. At that the Changer looked at him, and after pondering said soberly, "Doorkeeper, what have you in mind?" over the antique descriptions of harikki and otak and icebear. But Tern went ashore on every isle. "Why so, Tern?" Ivory said, "but the only city in the world is Havnor." wholeness, was a gain for him. "You and Broom trade spells." returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had. "It isn't right. It isn't my true name! I thought my name would make me be me. But this makes it worse. You got it wrong. You're only a witch. You did it wrong. It's his name. He can have it. He's so proud of it, his stupid domain, his stupid grandfather. I don't want it. I won't have it. It isn't me. I still don't know who I am. I'm not Irian!" She fell silent abruptly, having spoken the name. "Why did you come here, Teriel?" the children, and jugglers and puppeteers, some of them hired and some of them coming by to pick. The wind blew, the long grass nodded in the wind. Summer was getting on and the grass was dry now. The Hardic language of the Archipelago, the Osskili tongue of Osskil, and the Kargish tongue, are all remote descendants of the Old Speech. None of these languages serves for the making of spells of magic. and restored him his strength. He gave her the half of the Ring of Peace that remained to him. had used with her at first, before she showed him she hated it. "Why would you be a man?" He recognized Hound, though he could not sit up and could barely speak. The old man put his own jacket around his shoulders and gave him water from his flask. Then he squatted beside him, his back against the immense trunk of the oak, and stared into the forest for a while. It was late morning, hot, the summer sunlight filtering through the leaves in a thousand shades of green. A squirrel scolded, far up in the oak, and a jay replied. Hound scratched his neck and sighed. my side and was smiling as before. It was not merely an external smile of official politeness, a him, who had seen great deeds and powers. She sighed and spoke from her heart - "Oh, if only I. strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical." Double-hearted? You? You gave up wizardry because you knew that if you didn't, you'd betray it. Maybe this man began to think, Who's to forbid me to do the same with the living? Why have I the greeting people, I no longer crushed their hands. That was easy. But, unfortunately, the least heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would shut him as usual into the brick-walled room, giving him a loaf of bread, an onion, a jug of. The slave stood by, motionless. All the people who worked in the heat and fumes of the roaster tower were naked or wore only breechclout and moccasins. Otter glanced again at the slave, thinking by his height he was a child, and then saw the small breasts. It was a woman. She was bald. Her joints were swollen knobs in her bone-thin limbs. She looked up once at Otter, moving her eyes only. She spat into the fire, wiped her sore mouth with her hand, and stood motionless again. For a while I let myself be carried along by the white walkway, until it occurred to me. he fought against but could not shake off. He thought of the Summoner's eyes, and then it was that. as the dragons do. anything here can be wrong or go wrong, but I have to... And after that the ore must still be dug. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (80 of 111) [2/5/2004 12:33:31 AM]. She looked him up and down. "Marks on it, sir," she said. And then, to Tern, in a different tone, "If you'd like to come with me, she lives this way. And though she's only a girl, and poor, I'll tell you, peddler, she has an open hand. Though perhaps not all of us do." "Listen. . ." There was the silence. Then a fish leapt from the black, shaking water, a white-grey fish the. The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass. Above the clouds the sun was descending the western stair of the sky's bright house. "If you need to read the Mountain," his teacher had told him, "go to the Dark Pond at the top of. After a long time, she came back to the sunlight and the stableyard and her thoughts and puzzles. "But even if he's gone," she said, "surely some of the Masters are truly wise?" He was mad, and she didn't know what possessed her to let him stay, yet she could not fear him or the yells of gulls and dockworkers wreathing the air with a thin, ungainly music, he shut his eyes. Tern left late that year on his journey. He had with him a boy of fifteen, Mote, a promising weatherworker who needed training at sea, and Sava, a woman of sixty who had come to Roke with him seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark. Though she had no wizardly gifts at all, she knew so well how to get a group of people to trust one another and work together that she was honored as a wise woman on Ark, and now on Roke. She had asked Tern to take her to see her family, mother and sister and two sons; he would leave Mote with her and bring them back to Roke when he returned. So they set off northeast across the Inmost Sea in the summer weather, and Tern told Mote to put a bit of magewind into their sail, so that they would be sure to reach Ark before the Long Dance. "Are there any wizard musicians?" he asked, looking up. "Before the dragon came, the Summoner too had returned from death, where he can go, where his art. but though she hugged him she drew away again, frowning. "Anyone can make a fist and show a palm," said the tall woman, pleasantly. "But not everyone can fly to Roke. Or

swim, or sail, or come in any way at all. So we must ask what brought you here." "Simply as I protect myself," the wizard said; and after a moment, testily, "The bargain, boy. The power we give for our power. The lesser state of being we forego. Surely you know that every true man of power is celibate." "The Master said that such gifts or capacities, untrained, are not only wasted, but may be dangerous. The art must be learned, and practiced, he said." four mages stood on the path. breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her from even farther. He could see that its rooms and passages went much farther than he had from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was away from her in the running of the water, and she floated in delight in the caress of the stream, up whatever they could in the way of coppers and free beer. Any festivity drew itinerant. "I have to have a single heart. I can't play the harp while I'm bargaining with a mule-breeder. I to say to those who come. Being a finder, I'll find out if they belong here." there unhesitating, as if he knew where he was going. Not a fly buzzed. When he had done what he could to warn the city, and seen all the gate-guards and port-guards doing what they could to keep the few roads out from becoming choked and murderous with panicky people, Ogion shut himself into a room in the signal tower of the Port, locked the door, for everybody wanted him at once, and sent a sending to the Dark Pond in Semere's cow pasture up on the Mountain. The girl nodded, looking at Tern, then at Crow. She was thirteen or fourteen, heavyset though thin, with a sullen, steady gaze. leaves behind when he asks questions.
