However the Division came about, from the beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles-and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. "Thorion has been much with the other Masters, and with the young men. Secret meetings, inner circles. Rumors, whispers. Maybe he'd find out when he grew up.."You have told me," Veil said.."I don't know," he said. "Maybe we should not leave Roke."
