The computers had pronounced two men of Third Platoon killed and five wounded seriously enough to have been incapacitated. Colman was thinking to himself how nice it would be if real wars could be fought like that, when brilliant lights far overhead transformed the scene instantly into artificial day. He squinted against the sudden brightness for a few seconds, pushed his helmet to the back of his head, and looked around. The dead men and the seriously wounded who had been hit higher up on the slopes were walking down the trail in a small knot, while above them and to the sides, the other three platoons of D Company were emerging from cover. More activity was evident farther away along the gorge in both direc-. tions as other defending and attacking units came out into the open. Staff transporters, personnel carriers, and other types of flying vehicles were buzzing up from behind the more distant ridges where the sky ended. Colman hadn't realized fully how many troops had been involved in the exercise. An uncomfortable feeling began creeping into his mind - he had just brought to a premature end an elaborate game that staff people had been looking forward to for some time; these people probably wouldn't be too happy about it. They might even decide they didn't want him in the Army, he reflected philosophically. ledge and they climbed on his back, one on each shoulder. They held themselves tight by his long, thick. status. There had been no time for luxuries like space travel beyond the Moon and no billions of dollars to invest while the world's energy policies were being debated in the Arabian Desert with tactical nuclear weapons. Singh jumped, then turned around, looked at the three officers. They were looking as surprised as he was. When he still didn't see anything, he opened it all the way. "Why, there's nothing in ..." he began. But then something caught his eye at the very bottom of the trunk, and he reached in and picked it up. He turned toward the suitcase, his back to me. She had been transcribing the Lucas McGowan report for half an hour, humphing and tsk-tsking at thirty-second intervals. She was having a marvelous time. Miss Tremaine was about forty-five, looked like a constipated librarian, and was the best secretary I'd ever had. She'd been with me seven years. He knew from long experience that whatever could make him palpably happier was also liable to send him into a state of fugue in which conversation in the linear sense became next to impossible. So he passed the time till the next switchover by working out, hi his head, the square roots of various five-digit numbers. Then, when he had a solution, he'd check it on his calculator. Wells's The Island of Dr. Moreau, filmed with superbly demonic atmosphere as Island of Lost Souls in 1932. Charles Laughton, maybe the best actor yet to appear on film, gives an extraordinary performance as Dr. M., and Bela Lugosi captures the spirit of the beast men as the Speaker of the Law with the abhuman quality that characterized his Dracula. Now Burt Lancaster is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor role undermined the '70s trip to the Island; Richard Basehart didn't help matters by looking like a beneficent Old Testament prophet in the Lugosi role. But even Laughton and Lugosi would have been hard put to come across, with the later film's completely uninteresting script and camerawork." "Because we were expected," Song said, still looking away from them. "They must have watched the Earth, during the last summer season. I don't know; maybe they even went there.
