

## **PRAYER POWER 30 DAYS TO A STRONGER CONNECTION WITH GOD**

"Sometimes these sympathetic vibrations are very apparent, but alot of the time, they're so subtle that you can hear them only if you're unusually perceptive." "Angel," Phimie said urgently, and then, with an effort that made a blood vessel swell. Later, after they finished eating but were still sitting at the table over coffee, the conversation turned solemn, although for the moment, the subject wasn't the late Harrison White. How long the two women and the girl must hide out, when and where they would be able to resume lives as normal as might still be possible for them: These were the issues of the moment. A cold wind raised a haunting groan as it harried itself around and around in the bronze hollow of the bell atop the church steeple, shook dead needles from the evergreens, and resisted Paul's progress with what seemed to be malicious intent. Miles ago, between the towns of Brookings and Pistol River, he had decided that he wouldn't again walk this far north at this time of year, even if the guidebooks did claim that the Oregon coast was a comparatively temperate zone in winter. Angel returned to the table for apple juice and to announce, "They got a cookie-jar Jesus!" So smoothly did the waiter move, that three martinis on a corklined mahogany tray seemed to float across the room in front of him and then hover beside their table while he served the cocktails to the lady first, the guest second, and the host third. She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. Assisted by Edom and Jacob, Agnes-in a wheelchair-was rolled across the grass, between the headstones, to her husband's final resting place. Although no longer in danger of renewed hemorrhaging, she was under doctor's orders to avoid strain. Soon paramedics followed the police, who spread out through the apartment, and Junior relinquished his grip on the dishtowel. And now Cain was aware of her, interested in her. Informed of this development, Harrison would no doubt rethink his position. Nothing remained to be done but to press her shoe in the butter and hammer her head into the corner of the oven door. An outrageously sexy redhead hit on him as he selected from an array of bomb-shaped canapes on a tray held by a waiter dressed as a ragged and soot-smearred blast survivor. Myrtle, the redhead, preferred to be called Scamp, which Junior entirely understood. She wore a DayGlo green miniskirt, a spray-on white sweater, and a green beret. "And, listen, if you leave too soon behind me, I've got a guy watching, and he'll put a hollow-point thirty-eight in your ass." No turning back. In the fuming blackness, they would become disoriented in seconds, fall, and suffocate as surely as they would burn. Besides, the open window, providing draft, would draw the fire rapidly down the hallway at their backs. Snapping the cylinder into place, he rose to his feet. Already he had a new plan, and the cop's revolver was the most important tool that he required to implement it. In southern California, Agnes Lampion dreams of her newborn son. In Oregon, Junior Cain fearfully speaks a name in his sleep, and Detective Vanadium, waiting to tell the suspect about his dead wife's diary, leans forward in his chair to listen, while ceaselessly- turning a quarter across the thick knuckles of his right hand. The two men detached and rolled up the pleated green skirt that hung from the rectangular frame of the graveyard winch on which the casket was suspended. Green, rather than black, because Naomi loved nature: Junior had been thoughtful about the details of the service. Sitting on the edge of the bed, Maria lightly salted the runny eggs and spooned them into Agnes's mouth. "Eggs is as chickens does." Junior wanted to shoot all of them, but he said, "Take it. Keep it. Get it the hell out of here." "I've got one of those faces so ordinary you see it everywhere," said Edom, and decided to tell the story of the Tri-State Tornado of 1925. Matching his mother's whisper, taking obvious delight in their conspiracy, he said, "Our own secret society." Snap, snap, snap! Three more quarters ricocheted off the left side of his face-temple, cheek, jaw. Paul shook his head. "Oh, no. People look at our marriage, and they think I gave up so much, but I got back a lot more than I gave." Edom and Jacob Isaacson were her older brothers, who lived in two small apartments above the four-car garage at the back of the property. She bent down and kissed his cheek, his right eye, his left, his brow, his dry cracked lips. "I love you so much. I wanted to die when I thought you weren't with me anymore." . . . then how come you couldn't walk where your eyes were healthy and leave the tumors there," she remembered. Whereas Paul had been confounded in his desire to express his admiration for Salk, he was able to speak about Perri at length and with ease. Her wit, her heart, her wisdom, her kindness, her beauty, he goodness, her courage were the threads in a narrative tapestry that Pad could have continued weaving for all the rest of his days. Since her death, he hadn't been able to talk about her with anyone he knew, because his friends tended to focus on him, on his suffering, when he wanted them only to understand Perri better, to realize what an exceptional person she had been. He wanted her to be remembered, after he was gone, wanted her grace and her fortitude to be recalled and respected. She was too fine a woman to leave without a ripple in her wake, and the thought that her memory might pass away with Paul himself was anguishing. "Wally gave her tests. She's got an exceptional understanding of color, spatial relationships, and geometric forms for a child her age. She may be a visual prodigy." Celestina extended her left hand, which shook so badly that she nearly knocked over both their wineglasses. "I will." "Well, you ought to be," Grace said, taking her pies out to the Suburban that Wally had bought solely for this enterprise. lawn before they knew that the prodigy's invisible cloak wouldn't accommodate him as it did the girl. Cool, drenching rain pounded Tom at once, and he scooped Barty off the steps as Grace had gathered up. Throughout this procedure, Barty appeared solemn and thoughtful. When he had squeezed the tenth toe, he stared at it, brow furrowed. Between the one-line description of the baklava and the menu's more effusive words about the walnut mamouls, the suspense became too much, the doubt too insidious, at which point Celestina looked up and said, with more girlish angst in her voice than she had planned "Maybe this isn't the place, maybe it isn't the time, or maybe it's the time but not the place, or the place but not the time, or maybe the time and the place are right but the weather's wrong, I don't know--Oh," "For the love of God," Junior pleaded, "can't you please give me something

for the pain?" .was trying her best to ensure the health of the baby while still remaining slim enough to avoid suspicion..Two staff members were at the front desk, when last he'd seen them, out of sight now and too far away to hear the crooning. Junior had been waiting at the doors when the library opened, and thus far he'd encountered no other patrons.."Who?" she shouted, though they were perched side by side on a black-leather love seat.."That's correct," Parkhurst said. "Probably one or more small blood vessels ruptured from the extreme violence of the emesis." .As though stirred by static electricity, the fine hairs on the backs of Tom's hands quivered, and a current of expectation coursed through him..By now he recognized that the man approaching from the other graveside service was neither a Negro nor a stranger. Detective Thomas Vanadium was annoying enough to be an honorary Hackachak..When you construct or reconstruct a world that never existed, a wholly fictional history, the research is of a somewhat different order, but the basic impulse and techniques are much the same. You look at what happens and try to see why it happens, you listen to what the people there tell you and watch what they do, you think about it seriously, and you try to tell it honestly, so that the story will have weight and make sense..This didn't work for Junior. Strangely, when he focused on a mental image of any fruit-apple, peach, banana-his thoughts drifted to sex. He became aroused and had no hope of clearing his mind..But she knew. Barty, buoyant as ever, seemed not to be much worried about the problem with his vision. He appeared to expect that it would pass like any sneezing fit or cold..So these are reports of my explorations and discoveries: tales from Earthsea for those who have liked or think they might like the place, and who are willing to accept these hypotheses: things change: authors and wizards are not always to be trusted: nobody can explain a dragon..Celestina met them at the front door and flung her arms around Wally. He let go of his cane-Tom caught it-and returned her embrace with such ardor, kissed her so hard, that evidently residual weakness was no longer a problem..As he said cards, the magician turned a knowing look toward Edom, eliciting from him a responding frown of puzzlement..On this momentous day, however, drawing provided no solace. Frequently, her hands shook, and she could not control the pencil..She tried to tell him that he was going to make it, that he would be with her for a long time, that the universe was not so cruel as to take him at thirty with all their lives ahead of them, but the truth was here to see, and she could not lie to him..In a magazine article about the hero, passing mention was made of a restaurant where occasionally the great man ate breakfast..Barty set one other rule: "Without dying first ... and you have to be sure you can get back." .Leaving the engine running and the heater on, he got out of the car, leaned back inside, said, "Better lock up while I'm gone," and then closed his door..Joey was not illuminated by the light of this world. Agnes realized that he was translucent, his skin like fine milk glass through which shone a light from elsewhere..Focus, Caesar Zedd teaches, is the sole quality that separates millionaires from the flea-ridden, sore-pocked, urine-soaked winos who five in cardboard boxes and discuss vintages of Ripple with their pet rats. Millionaires have it, winos don't. Likewise, nothing but the ability to focus separates an Olympic athlete from a cripple who lost his legs in a car wreck. The athlete has focus, and the cripple doesn't. After all, Zedd notes, if the cripple had it, he would have been a better driver, an Olympic athlete, and a millionaire..The friendship, the work, and not least of all the sense of home and belonging that everyone felt within minutes of crossing Agnes's threshold-these things appealed to Celestina and Grace. But they didn't want Paul to feel that his hospitality was unappreciated.."Dr. Lipscomb delivered the baby like two minutes ago. The afterbirth hasn't even been removed yet," the nurse informed her..When at last the caller spoke again, her voice sounded a kingdom away: "Will you tell Bartholomew ... ?" .Increasingly, he used meditation to relieve stress. He was so skilled at concentrative meditation without seed-blanking his mind-that half an hour of it was as refreshing as a night's sleep..Angel raised her attention from the salt shaker to Tom's face, studied his scars for a moment, and said, "No." .Shaking the ravaged khakis at him, she said, "Then what made such a mess of these?.An hour later, when Barty decided he wanted a soda, he switched off the book and asked Angel if she would like something to drink..When Junior complained of severe thirst, Victoria explained that he was to have nothing by mouth until morning. He would be put on a liquid diet for breakfast and lunch. Soft foods might be allowable by dinnertime tomorrow..When Junior opened the trunk, he discovered that fishing gear and two wooden carriers full of carpenter's tools left no room for a dead detective. He would be able to make the body fit only if he dismembered it first..Junior found no answers before the owner of the diner blocked him from proceeding out of the kitchen into the storeroom and the service alley beyond. Simultaneously sweating and chilled, Junior cursed him, and the confrontation became ugly..In the morning, after Agnes showered and dressed, when she went downstairs, she discovered Barty already at the kitchen table, eating a bowl of cereal while riveted to the book. Finished with breakfast, he returned to his room, reading as he went.."September 27, 1962. Barcelona, Spain. A flood killed four hundred forty-five people." . "I'm afraid you're wrong." When Tom opened his left hand, the palm lay as bare as that of a blind beggar in a country of thieves. Meanwhile, his right hand had tightened into a fist again.."You're one to talk," Celestina said. "Who was it told us they were sitting hand in hand on the front-porch swing." .Barty approached stair climbing as a mathematical problem, calculating the precise movement of each leg and placement of each foot necessary to successfully negotiate the obstacle. He proceeded less slowly on the next three steps than he had on the first three, and thereafter he ascended with growing confidence, pumping his legs with machinelike precision..Sparky wasn't a bad guy, not easily bought, and if he'd been asked to sell out any tenant other than Cain, he probably wouldn't have done so at any price. He greatly disliked Cain, however, and considered him to be "as strange and creepy as a syphilitic monkey." .The presence of the brochure disturbed Vanadium also because he assumed that after being dead-ended by Nolly, Cain had subsequently discovered that Celestina had taken custody of the baby to raise it as her own. For some reason, the nine-toed wonder originally believed the child was a boy, but if he'd tracked down Celestina, he now knew the truth..This baffled Junior. To the best of his recollection, during the weeks that Seraphim had come to him for physical therapy, she had never mentioned an older

sister or any sister at all..and humble. They managed to worry up tuition for art school, but Celestina worked as a waitress to pay for her studio apartment and other needs..At first all had gone well. Agnes, Maria, and Edom were rightly amazed. A thrill of wonder and big smiles all around the table. They were enthralled by the astoundingly favorable fall of cards, a breathtaking mathematical improbability..For an instant, she appeared to be frowning. Then he realized this couldn't be a frown. It must be a smoldering look of desire..In the crisis, the rack holding her oxygen bottle had been rolled to the bed. The breathing mask lay on the pillow beside her..so she reached across her body with her left hand, which Celestina gripped tightly.. "It was... the only dream that mattered," Joey said. "You ... loving me. It was a good life because of you." He prepared his knives and guns. Blades and bullets. Fortune favors the bold, the self-improved, the self-evolved, the focused..Not that she ever gave any indication that her brothers were other than a source of pride for her. She treated them always with respect, tenderness, and love-as if unaware of their shortcomings.. "Does my dad like Christmas?" Barty asked, sitting on the grave grass in front of the headstone.. "Sure they do," Barty said. "But I think Maria embroidered the birds just because they were pretty." .Dr. Chan's manner remained professional, providing the strength that Agnes required, but his pain was evident when his gentle voice softened further: "These tumors are so advanced, we won't know until surgery if the malignancy has spread. We may already be too late. And if we aren't too late, we'll have only a small window of opportunity. A small window. Eight days would entail too much risk." .He phoned her before leaving, to be sure she was home. She didn't work weekend shifts at the hospital; but maybe she would have gone out on this night off. When she answered, he recognized her seductive voice-and devilishly muttered, "Wrong number." .Harrison was a Baptist, Vanadium a Catholic, and although they approached the same faith from different angles, they weren't coming to it from different planets, which was the feeling Vanadium had been left with following their conversation. It was true that Enoch Cain could never be brought successfully to trial for the rape of Phimie, subsequent to her death and in the absence of her testimony. And it was also uncomfortably true that exploring the possibility that Cain was the rapist would tear open the wounds in the hearts of everyone in the White family, to no useful effect. Nevertheless, to rely on divine justice alone seemed naive, if not morally questionable..He drove his yellow-and-white 1955 Ford Country Squire station wagon. He'd bought the car with some of the last money he earned in the years when he had been able to hold a job, before his ... problem..I'll put you in a twilight sleep, you babbling cretin. Where'd you earn your medical degree, you nattering nitwit? Botswana? The Kingdom of Tonga?. "We have reason to believe that the man who raped your sister is stalking you." .Tom was aware that something had happened here during the past week, an important development that Celestina mentioned on the phone but that she declined to discuss. He didn't harbor any expectations of what he'd find when she escorted him and Wally into the Lampion dining room, but if he'd tried to imagine the scene awaiting him, he wouldn't have pictured a s?ance.. "Last I noticed, his car was out. Let me check." Sparky put down his phone and went to look in the garage. When he returned, he said, "Nope. Still out. When he parties, he usually parties late." .Agnes remained mystified by this talk, but a week before, in the rain-swept cemetery, she had learned there was substance to it..Not cheerful, life-loving, high-spirited, churchgoing Naomi. She saw every day through a golden haze that came from the sun in her heart..Reflecting upon her son's clever, diligent, and uncomplaining adaptation to darkness, she wished that she had described to him the dazzling sunset under which they had made their journey home. Although her words might have been inadequate to the spectacle, he would have elaborated on them to create a picture in his mind; with his creative skills, the world that he'd lost with his sight might be remade in equal splendor in his imagination..The two men introduced themselves. The physician was Dr. Jim Parkhurst. His manner was easy and affable, and his soothing voice, either by nature or by calculation, was as healing as balm..Surprising himself more than anyone, Edom also presented his collection to the university. Out with tornadoes, hurricanes, tidal waves, earthquakes, and volcanoes; bring in the roses. He lightly renovated his small apartment, painted it in brighter colors, and throughout the autumn, he stocked his bookshelves with volumes on horticulture, excitedly planning a substantial expansion of the rosarium come spring..Maria Elena Gonzalez--such an imposing figure in spite of her diminutive stature that even three names seemed insufficient to identify her--was still present. Although the crisis had passed, she wasn't ready to trust that nurses and doctors, by themselves, could provide Agnes with adequate care..He shook so badly that he couldn't remove the cap from the bottle. He was proud to be more sensitive than most people, to be so full of feeling, but sometimes sensitivity was a curse..OTTER WAS THE SON of a boatwright who worked in the shipyards of Havnor Great Port. His mother gave him his country name; she was a farm woman from Endlane village, around northwest of Mount Onn. She had come to the city seeking work, as many came. Decent folk in a decent trade in troubled times, the boatwright and his family were anxious not to come to notice lest they come to grief. And so, when it became clear that the boy had a gift of magery, his father tried to beat it out of him..Earlier, after sprinting down the fire road, he had been breathing hard when he reached his Chevy, and by the time that he'd raced to Spruce Hills, the nearest town, he had spiraled down into this strange condition. His driving became so erratic that a black-and-white had tried to pull him over, but by then he was a block from a hospital, and he didn't stop until he got there, taking the entry drive too sharply, jolting across the curb, nearly slamming into a parked car, sliding to a stop in a no-parking zone at the emergency entrance, lurching like a drunkard as he got out of the Chevy, screaming at the cop to get an ambulance..When she discovered she was pregnant, Phimie dealt with this new trauma as other naive fifteen-year-olds had done before her: She sought to avoid the scorn and the reproach that she imagined would be heaped upon her for having failed to reveal the rape at the time it occurred. With no serious thought to long-term consequences, focused solely on the looming moment, in a state of denial, she made plans to conceal her condition as long as possible..because the car was either struck again by the pickup or hit by other traffic or perhaps it collided with a parked vehicle, but whatever the cause, the breath was knocked out of her, and her

screams became ragged gasps..Pecan cakes, cinnamon custard pies boxed in insulated coolers, gifts wrapped with bright paper and glittery ribbons. Agnes Lampion made deliveries to those friends who were on her list of the needful, but also to friends who were blessed with plenty. The sight of each beloved face, each embrace, each kiss, each smile, each cheerfully spoken "Merry Christmas" at every stop fortified her heart for the sad task awaiting her when all gifts were given..Without a word, Joshua Nunn and the paramedic retreated to the foyer. The parlor doors slid shut.."Wait," said Deed, holding out one hand either beseechingly or to block the door..The boy-wonder physician turned to Junior again and assumed an expression of compassion so inauthentic that if he'd been playing a doctor on even the cheesiest daytime soap opera, he'd have been stripped of his actor's-union card, fired, and possibly horsewhipped on a live television special. "We'll be doing the procedure this afternoon, so I wouldn't want to give you anything much for the pain just prior to anesthesia and sedation. But don't you worry, Mr. Pinchbeck. Once we've lanced these boils, when you wake up, ninety percent of the pain will be gone.".The walls were barren. The only art in these rooms was a single sculpture. Junior was taking university extension courses in art appreciation and almost daily haunting the city's countless galleries, constantly deepening and refining his knowledge. He intended to refrain from acquiring a collection until he was as expert on the subject as any director of any museum in the city..Agnes drew him into her arms and lifted him off the desk and embraced him tightly, with his head on her shoulder and his face nestled against her neck, as she'd held him when he was a baby..Two high-quality deadbolt locks. Sufficient protection against the average intruder, but inadequate to keep out a self-improved man with channeled anger..Jacob was hiding something. Until he had spoken of Josef Krepp, his every response had been formed as a question, which had always been his preferred method of avoidance when conversation involved a subject that made him uncomfortable..Fear of the unknown is a weakness, for it presumes dimensions to life beyond human control. Zedd teaches that nothing is beyond our control, that nature is just a mindlessly grinding machine with no more mysteries in it than we will find in applesauce.."That's the roaster tower," said Licky. "Where they cook the cinnabar to get the metal from it. Roasters die in a year or two. Where to, dowser?".For Agnes and Barty, one stop remained, where some of the joy of Christmas would always be buried with the husband that she still missed every day and the father that he would never know..Clenching his right hand around the quarter, waving left hand over right, he intoned, "Jingle-jangle, mingle-jingle." Opening his right hand, he revealed that the coin had vanished..Kathleen and Nolly shifted their attention to Tom's clenched left hand, although the quarter could not possibly have traveled from one fist to the other..The following day, Wednesday, December 27, his mother drove him to the library, where he checked out two Heinlein titles recommended by the librarian: Red Planet and The Rolling Stones. Judging by his excitement, on the way home in the car, his response to previous mystery-novel series had been a pleasant courtship, whereas this was desperate, undying love..where everyone spoke a single language and had all the blueberry pies they needed.
