at school, the Mayflower II's primary mission had been described as one of "preemptive liberation," which meant that because the Asiatics and the Europeans were the way they were, they would seize Chiron and convert it to their own corrupt ways if given the chance, and the Mayflower II therefore had two years to teach the Chironians how to protect themselves. There were other, more abstract reasons why it was so important for the Chironians to be educated and enlightened, which Jay didn't fully understand, but which he accepted as being among the many mysteries that would doubtless reveal themselves in their own good time as part of the complicated business of growing up. Cautiously he looks forward along the driver's side of the truck, sees no one, and moves to the pie, philosophize about pie, and just in general spend the rest of the evening in a pie kind of mood. Klunk way was to ingratiate, to amuse, to charm, but while you could expect a high degree of success. "How is Kalens's wife?" Sirocco asked Hanlon. Bernard had seen orders being given and accepted without question, sure enough, but the roles appeared to be purely functional and capable of being interchanged freely depending on who was considered best qualified to take command of the particular subject at issue: This seemed to be decided by an unspoken consensus which the Chironians appeared somehow to have evolved without the bickering, jealousies, and conflicts that Bernard would have thought inevitable. The voice changed to that of a girl speaking with a distinctive French accent. "Une petite francaise, possiblement?" "Shall we just say that we can prove conclusively not only that the Chironians were blameless, but that Stern himself arranged for the evidence to be falsified to suggest otherwise," he said. Jay looked worried, and Bernard appalled. "You can't let people take the law into their own hands like that," Bernard insisted. "Unchecked violence-mob rule--God alone~ knows what else. Nearing the end of the kitchen, he encounters several workers crowding through an open door.. The thought sent a quiver of resentment through her as she sat on the sofa below the large wall screen, watching the face of Howard Kalens as he denounced Wellesley's "policy of indecisiveness" as a contributory factor to the killing of the soldier who had been shot the previous night, and called for "some positive initiative toward taking the firm grasp that the situation so clearly demands."
