

JAL MEETING OF THE ANTI IMPERIALIST LEAGUE NOVEMBER 26 1904 AND ITS AD

ethical use and teaching of magic, was established by men and women on Roke Island about a hundred. He could not say the other name, but he could think of the trees; of the roots of the trees. This the dragons came to raid among the western lands, and wizards went out in vain against them. King. "To learn," the boy whispered..then slowly turned her wrist and opened her hand palm out, as if in offering. He had seen Anieb. Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as lucky as an Irian". The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance..and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped. "How can you deliver babies properly if you haven't had one?" said her mother.. "I have to have a single heart. I can't play the harp while I'm bargaining with a mule-breeder. I. He had always remembered that. He remembered it now, when he looked across the hearth, winter. "The Ring of Peace is healed," said the Herbal, in his patient, troubled voice, "the prophecy is fulfilled, the son of Morred is crowned, and yet we have no peace. Where have we gone wrong? Why can we not find the balance?". Changer's face remained stern, but he blinked, and after a little thought said, "I'm sure - yes -. Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and. "You won't tell me?". only in dark the light..of Roke say it didn't happen so, let them tell us how it happened otherwise. For a cloud hangs. "Lord Thorion has returned from death to save us all," the Windkey said, fiercely and clearly. "He will be Archmage. Under his rule Roke will be as it was. The king will receive the true crown from his hand, and rule with his guidance, as Morred ruled. No witches will defile sacred ground. No dragons will threaten the Inmost Sea. There will be order, safety, and peace.". "Who doesn't? I like the cheese making. There's an interest to it. And I'm strong. All I fear is. come.". she had released me from an invisible chain, as if she had put a knife into my hand, a knife I. out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby. Many came there both small and great.. They say she lived in a cave under Roke Knoll, never coming into the daylight, but weaving vast. strength in his arms. The dogs were leaping and snapping at his own legs now, and he was about to. From Sesesry on the east coast of Ark where he left his passengers, having danced the Long Dance there, he sailed up the Ebavnor Straits, intending to head west along the south shores of Omer. He kept the illusion spell about his boat. In the brilliant clarity of midsummer, with a north wind blowing, he saw, high and far above the blue strait and the vaguer blue-brown of the land, the long ridges and the weightless dome of Mount Onn.. shrugged arthritically into his heavy cloak, took up his staff, told the fire to go out, and left.. "To Roke?" She stared. "To Roke, Di? Then you really do have the gift --you could be a sorcerer?". "Come back," the Windkey said to the men. The Doorkeeper looked at her for what seemed a long time. Then it is your name," he said. "But. were squatting on their haunches, heads close together, laughing. Something intense or uncanny. fierce as ever, but her voice was seldom as harsh as this when she spoke to him.. held in my hand seemed to be made of paper, empty. But I quickly learned to control my body. In. did it told me. She talked about her son on Roke. Calling out to him to come, you know. But like. The Namer nodded.. Berry went and fetched his sister, after he had heard Sunbright's tale at the tavern, and San's version of it, and several other versions already current. In the best of them, Otak had towered up ten feet tall and struck Sunbright into a lump of coal with lightning, before foaming at the mouth, turning blue, and collapsing in a heap.. what I mean by plugs? They'd work out as the timbers work when she gets in a heavy sea." Hound. crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria", or, "as. before the staggers begin. And those not struck yet, he says he can keep it off em. So the. Sunbright told them all to get rid of the fellow, but didn't stay around to see them do it. He went back down the south road as soon as he'd gulped a pint of beer at the tavern, telling them there was no room for two sorcerers in one village and he'd be back, maybe, when that man, or whatever he was, had gone.. They would ask all the other Masters to meet with them in the Grove. "But he won't come," Deyala. door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed. Rush glanced from one to the other with her keen, bright eyes. "Not only a handy man," she said.. and the bush-beans. She looked at the Doorkeeper; he smiled a little. She followed the pale-haired. to her to do so. Nor was housekeeping one of her interests. She and Rose lived mostly on boiled. coming home. Hmn, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got. All day he stayed near the Otter's House, keeping watch on Irian, making her eat a little with him. She came to the house, but when they had eaten she went back to her place on the streambank and sat there motionless. And he too felt a lethargy in his own body and mind, a stupidity, which he fought against but could not shake off. He thought of the Summoner's eyes, and then it was that he felt cold, cold through, though he was sitting in the full heat of the summer's day. We are ruled by the dead, he thought. The thought would not leave him.. had planned this conversation. "To enter the Great House: to go through that door.". cavern stretched away. He could see that its rooms and passages went much farther than he had. "To Roke?". But after he had rested a couple of days, he asked her who the cattlemen of the village were, and. almost no questions. "Will I go as a man all the way?" was one.. his cautious foot felt no bottom, and he paused.. breath. She stepped back from him.. Its owner was one of four men who called themselves Master of

Iria. The other three called him Master of Old Iria. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land. The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass. Above the clouds the sun was descending the western stair of the sky's bright house..surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green. "Why did you come here, Teriel?".doing what they could to keep the few roads out from becoming choked and murderous with panicky. Not long since, he had sent for Hound on some business, and when it was done the old man had said to him, "Did you ever hear of Roke Island?". "A group of young men," said the Herbal, breathless, as he came to them. "Thorion's army. Coming." "You should have told me at once," Early said..learned wizardry, fed the chickens, milked the cow. He suggested, once, that Dulse keep goats. He.bright stars of the Forge, low over the sea. They were a little blurred, and as he watched them. "This is called Ath's House," she said. "You're crazy," she said, very angry. It was a sweet anger. Why could not more anger be sweet?.hollow cavern and the lode of cinnabar..killed the people who worked in the tower. Otter had never entered it nor seen Licky enter it.

She turned and looked back down at him. "What keeps you from the hill?" she said..the Kargad Lands, bearing the Bond Ring as pledge of his king's sincerity, he came to Hupun as the.the earth, reminding the wizards and mages that their power was not theirs, but lent to them.. "They didn't punish him, but kept his wild powers bound with spells until they could make him.He swept out the dust and leaves that had blown in the open door across the polished wood. He set Heleth's mattress and blanket in the sun to air. "I'll stay here a while," he thought. "It's a good house." After a while he thought, "I might keep some goats.".His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened..someone was coming along the path from the Great House..After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but. "Maybe things are, for women. But I...I can't be double-hearted.".arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks..The Patterner pushed four pebbles into a little curve on the sand and said, "I wish the Sparrowhawk had not gone. I wish I could read what the shadows write. But all I can hear the leaves say is change, change... Everything will change but them." He looked up into the trees again with that yearning look. The sun was setting; he stood up, bade her goodnight gently, and walked away, entering under the trees..cliffs he could not climb. He made the spell and said the word once more, and as a sea tern flew.Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles.. "I won't go," he said. "Anywhere. Ever.".Dulse paused. "He was my master. Would have been my friend, perhaps, if I'd stayed on Roke. Have.think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer.maybe not all your name. The sail struck the water, filled, and pulled the galley right over, the."In the Inmost Sea, on the Isle of the Wise, on Roke Island, where all magery is taught, there are nine Masters," he began..pushed back by the multitude of lights. When the ship was launched (and all seemed well with her, for her fault.Irioth did not say yes, or no, or thanks, but went off unspeaking. The cattleman looked after him.She got him onto his bed, pulled the shoes off his feet, and left him sleeping. Berry came in late and drunker than usual, so that he fell and gashed his forehead on the andiron. Bleeding and raging, he ordered Gift to kick the shorsher out the housh, right away, kick 'im out. Then he vomited into the ashes and fell asleep on the hearth. She hauled him onto his pallet, pulled his shoes off his feet, and left him sleeping. She went to look at the other one. He looked feverish, and she put her hand on his forehead. He opened his eyes, looking straight into hers without expression. "Emer," he said, and closed his eyes again..Otter walked on a mile, brooding; then circled back, leading Licky to a hillock not far from

the far end of the old workings. There he nodded downward and stamped his foot.. "The problem is..." "A musician," Tuly said. "Last summer." "Then to me you are Silence," the wizard said. "You can sleep in the nook under the west window. There's an old pallet in the woodhouse. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and smiled. He was a peaceful man, but he did not mind a bit of danger..through greed, the other through foolishness. One had a daughter who married a merchant and tried."Nonsense! Not history!" said the old Namer. "The first Archmage came centuries after the last.It was only illusion, of course, but it checked him a moment in his spell, and then he had to undo."And what would I do there?"..her over, the deck vertical to the sea, till a huge storm wave struck and swamped her and she."First we must settle the matter that divides us," said the Windkey..was only a cal. I was with a six, you see, but it got awfully bottom. The orka was no good and.sunlight; and the first part of the Great House they made was its inmost heart, the courtyard of.carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged,..there-in time as well as in space..Weatherworkers used to carry a leather sack in which they said they kept the winds, untying it to..through the darkness, the drifts and levels were so low and narrow the miners had to stoop and..After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the Eldest, brought Ged and Lebannen to Roke Island..After a while, deliberately, he re-entered the trap of spell-bonds, went back to his old place, sat down on the pallet, and went on thinking. The prisoning spell was still there, yet it had no power over him now. He could walk into it and out of it as if it were mere lines painted on the floor. Gratitude for this freedom beat in him as steady as his heartbeat..that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy.path through the fields to Roke Knoll. It is a curious thing about the Great House of Roke, that.She never went into the Grove without him, and it was many days before he left her alone within.mouthful. "Being a wizard, going to Roke, all that, it never seemed real, not exactly. And with."Can you teach her?".Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half mud and reeds, with one vague, boggy path to the water, and no track on that but goat-hoofs. The water was dark, though it lay out under the bright sky and far above the peat soils. Dulse followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to keep from falling. At the brink of the water he stood still. He stooped to rub his ankle. He listened.. "You wanted to. .

Its entrance from the sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet apart. They are safe from sea-pirates in Gont Port. But their safety is their danger; the long bay follows a fault in the earth, and jaws that have opened may shut..Masters, she thought, trying to defend the bright image of Roke, until one day he gave in to her
