I all the world to come to him-which was true. Maybe that's where the danger of that art lies..These kings and queens had some knowledge of the Old Speech and of magery. Some of them were certainly wizards, or had wizards to advise or help them. But magic in The Deed of Enlad is an erratic force, not to be relied on. Morred was the first man, and the first king, to be called Mage..fate had shaken him. There was something mysterious in it, some element or some person missing..There they fished for whales, as they still do. That was a trade he wanted no part of. Their ships stank and their town stank. He disliked going aboard a slave ship, but the only vessel going out of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed Sea, south and east of O, where there were rich isles, little known, that had no commerce with the lands of the Inmost Sea. What he sought might be there. So he went as a weatherworker on the galley, which was rowed by forty slaves..Early laughed. Or so he seemed. What if he was cheating, hiding his power, a rival hiding his power? A jealous rival. He must be stopped, he must be bound, named, called. Irioth began to say the words that would bind him, and the shaken man cowered away, shrinking down, shriveling, crying out in a thin, high wail. It is wrong, wrong, I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth, fighting against them, and at last crying out one other word. Then the man Ayeth crouched there, vomiting and shuddering, and San was staring and trying to say, "Avert! Avert!" And no harm was done. But the fire burned in Irioth's hands, burned his eyes when he tried to hide his eyes in his hands, burned his tongue away when he tried to speak.. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea.."You should have told me at once," Early said.."If you stayed here, what would you do?" the black-browed woman asked him..Irian!"..directions, not illuminated by a single spark..them -- were swallowed by each successive tunnel of this journey whose destination I did not.After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute..Places on the Four Lands, where no warfare or dispute was permitted. The woman in it was so wasted that in the dim light she seemed nothing but bone and shadow. As Tern came close she tried to sit up and to speak. He sat in Hopeful and crooned over the antique descriptions of harikki and otak and icebear. But Tern went ashore on every isle, showing his wares in the kitchens of the housewives and the sleepy taverns where the old men sat.
