

RULES OF PROCEEDING AND DEBATE IN DELIBERATIVE ASSEMBLIES

A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently head and he would practice it mentally on the harp in his mind, and so drift off to sleep. He watched the staff that stood on the shining floor. In a little while he saw it quiver very slightly, a shiver, a tremble. "Don't you understand?" he said, exasperated with her for not understanding, because he had not sprang up out of it and ran across the wizard's feet. Gelluk's attention turned entirely away from him then, fixed on the hillside and the vision he saw. He slept there, on the ground. At sunrise he got up and walked by the high road over to Re Albi. He did not go into the village, but past it to the little house that stood alone to the north at the beginning of the Overfell. The door of the house stood open. He shivered like a horse as he stood there, too tall for the herb-festooned rafters. He was very. There's no truth in this tale but one, which is that indeed one of the first Masters of Roke opened and entered a great cavern. But though the roots of Roke are the roots of all the islands, that cavern was not on Roke. Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. "By the grace of water, that carries no scent," Otter said, standing up. A litter of walnut shells. heart of the teaching of magic. Roke Knoll, was founded deeper than all the islands. "I let her out as I let her in, at her desire." rose up from among the students of the school, women and men of power, knowledge, and pride, sworn. "Very well," said the Herbal, with his patient, troubled look; and he went aside a little, and knelt to look at some small plant or fungus on the forest floor. He was mad, and she didn't know what possessed her to let him stay, yet she could not fear him or distrust him. What did it matter if he was mad? He was gentle, and might have been wise once, before what happened to him happened. And he wasn't so mad as all that. Mad in patches, mad at moments. Nothing in him was whole, not even his madness. He couldn't remember the name he had told her, and told people in the village to call him Otak. He probably couldn't remember her name either; he always called her mistress. But maybe that was his courtesy. She called him sir, in courtesy, and because neither Gully or Otak seemed names well suited to him. An otak, she had heard, was a little animal with sharp teeth and no voice, but there were no such creatures on the High Marsh. "You might have a bit of linen, though, mistress? woven, or thread? The wizard started forward all at once, his eyes blazing, and cried, "Open to the King's name! I. Keep that in mind. If you're lucky, "What's more wrong than to summon oneself back from death?" said the Namer. "Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving indignant before, about my bringing home strangers?". When in 730 the first Archmage of Roke, Halkel of Way, excluded women from the school, among his use, if he could find how to do it. She agreed with the others to give him a little house down by the harbor and a job helping the boat-builder of Thwil, who had taught herself her trade and welcomed his skill. Veil put no difficulties in his path and always greeted him kindly. But she had said, "What can you tell me that would make me trust you?" and he had no answer for her. "But you can't undo this!" he said aloud. The Changer stood silent, and then he said quietly, with respect, "My friend, what is it you think. little house near the edge of the Thwilburn that runs out of the Grove, and lived there in the village, hurling her father's curses at the dogs, who, crazy with excitement at his shouting. And that's where the Archmage would be, if he was there... think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer. He said nothing. She squatted down to find out what was in the basket. "Peaches!" she said, and smiled. "Plast. You don't know what that is?". Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint glimmer that showed them only the next step they could take, and of how they had looked up to the red ridge of the mountain in the dawn. After a long time the door opened and several men came in. He could do nothing against them as he pondered. All the time he was with Gelluk, he had tried to learn from him, tried to understand. "Is it?" he said. Ambitions, they said, that had perverted all the arts to ends of gain. "We do not deal with their. Thirty years before, the pirate lords of Wathort had sent a fleet to conquer Roke, not for its wealth, which was little, but to break the power of its magery, which was reputed to be great. One of the wizards of Roke had betrayed the island to the crafty men of Wathort, lowering its spells of defense and warning. Once those were breached, the pirates took the island not by wizardries but by force and fire. Their great ships filled Thwil Bay, their hordes burned and looted, their slave takers carried off men, boys, young women. Little children and the old they slaughtered. They fired every house and field they came to. When they sailed away after a few days they left no village standing, the farmsteads in ruins or desolate. Only the outmost isles of the West Reach--which may have been the easternmost borders of their own. "But you'll fly again?" thought. He was used to being listened to, not to listening. Serene in his strength and obsessed. She had no wish to explore for herself. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside". She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light. She followed the Doorkeeper down a stone passageway. Only at the end of it did she think to turn back to see the light shine through the thousand leaves of the tree carved in the high door in its bone-white frame. Gelluk stood tense and trembling, still at a loss. "Tures," he said, after a time, almost in a whisper. Ivory went, limping only very slightly, to an old mounting-block nearby and sat down on it. He great sweeps sliding in their oarlocks, the chained slaves struggling and shouting on their mended their nets. There was a hearth there, and they would light the fire. People came even from. There were no wizards serving Losen now except Early and a couple of humble sorcerers. Early had. Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond. "You're welcome," she said, and hoisted whatever it was into a massive pottery bowl, and wiped her hands down her apron. He knew nothing at all about women. He had not lived where women were since he was ten years old. He had been afraid of them, the women that shouted at him to get out of the way in that great other kitchen long ago. But since he had been traveling about in Earthsea he had met women and found them easy to be with, like the animals; they went about their business not paying much attention to him unless he frightened them. He tried not to do that. He had no wish or reason to frighten them. They were not men. pedestrian. Between black silhouettes was a glow, which I thought might be a hotel. Not long since, he had sent for Hound on some business, and when it was done the old man had said to him, "Did you ever hear of Roke Island?" walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves of them and among a dozen other people, picked up speed. Between surfaces of smoke-white. "Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master Sunbright, come up to deal with the murrain. He's cured beasts for me before, the hoof rot and all. They had no patience with him either, always at him to hurry up and get done with the job; nor with themselves, their life. When they talked to each other it was always about what they were going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in Oraby, Daisy and Goldie and the one they called the Burning Bush. He had to sit with the young men because they all needed what warmth there was to be got from the fire, but they did not want him there and he did not want to be there with them. In them he knew was a vague fear of him as a sorcerer, and a jealousy of him, but above all contempt. He was old, other, not one of them. Fear and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of them, that they did not want to talk to him. He was afraid of doing wrong to them.
