The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon.. "I didn't mean to offend you. It's just that, you see, if it is known that no one can -- you." "Do you trust me, Dragonfly?" Banners still flew from the towers of the City of Havnor, and a king still ruled there; the banners were those of captured towns and isles, and the king was the warlord Losen. Losen never left the marble palace where he sat all day, served by slaves, seeing the shadow of the sword of Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Losen shouted, beating his paralyzed legs with his weak hands.. always did. "Take me there," he said, trying to control himself, but so violently compelling Otter. acts. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves."Rose was muttering a rote spell, but it was her hands and her little short sharp knife that did most of the work. The ewe bore the digging knife patiently, her opaque, amber, slotted eyes gazing into silence; only she stamped her small left front foot now and then, and sighed..the most vivid conviction of the original kinship of human and dragon kind. "A little," she said..Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea..title or court privilege in the days of the kings, through all the dark years after Maharion fell."You're going to Roke to find out," he said, raising his glass to her. He needed much more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. And after that the ore must still be dug out of the earth and the metal refined.
