Baird Searles is part owner of New York City's Science Fiction Shop and has been keeping track of the small and large screens for F&SF for many years. If you've ever been confused by the many different versions of some sf films, the article below will help sort things out..168.The Brewster ran heavily in the red, but Birdie didn't mind. She had quite a bit of property in Westwood which ran very, very heavily in the black. She gave me an obscene leer as I approached the desk, but her good eye twinkled.."You're right," said McKUlian. They sprouted from the ground; isn't it possible they could withdraw when things start to get tough again? They'd leave spores behind them as they retreated, distributing them all through the soil. "It would be all right for a while," she recalled. "But the pressure would build until I had to go out and find someone to talk to. It is a basic human need, after all. Perhaps the basic need. I had no choice.". "You might," said Amos. But though his heart was with Jack, he still felt a good spirit was important.The next moment it was Selene, wholly Selene, who stood there. She hurried across the room and knelt beside me. "Are you all right? You've got blood all over your head.". "Certainly. Barry, you said? You're so direct it's almost devious. Let's go to my place. They made it sound like kinky fun. Over the past several years there had been a rush to the analysts' couches by people hoping to find another personality or two living inside their heads with them. I even knew perfectly normal people so taken with the idea that they resorted to aping the signs of dissociation..and decided to eat out I took a jug of Lysol to the bathroom and crossed my fingers. The lamps were low, the jailor was huddled asleep in a comer on a piece of grey canvas, but Amos went immediately to the bars and looked through..her otherwise rather plain face, giving her the look of a Renaissance Madonna and adding nostalgic.and the defiant jaw, that I was looking at the King..Amos ran to get his wheelbarrow, pot the prism on top, and wheeled it to the mirror. So I thought I'd make one of my own.".There was a tiny new star, brighter than all the rest, brighter than Phobos. It hurt to took at it but none of them looked away. It was the fusion drive of the Edgar Rice Burroughs, heading sunward, away from the long winter on Mars. It stayed on for long minutes, then sputtered and was lost. But he touched no more than her hand..Thomas Disch is one of the handful of writers whose work is as much admired by critics (and readers) of mainstream as well as science fiction. He wrote six fine stories for F&SF in the 1960s. Since then he has published poetry (The Right Way to Figure Plumbing), an anthology, Bad Moon Rising, and three remarkable novels, The Genocides (1964),

Maurice was a philatelist. He specialized in postwar Germany-locals and zones, things like that. He'd gotten a kilo of buildings and wanted to sort them undisturbed." "Very well then, I have a plan." Again Amos began to whisper through the bars, and Jack smiled and nodded..He grinned and blitzed me. "Yeah, I guess. They did, and as they..I lived on the Heliomere myself, just a kilometer away from Amanda's cabin. I don't sleep late, and the next morning while I was taking my wake-up walk along the beach, I saw no reason not to pass her cabin. I could take a brief look to make sure everything was all right, then come back for her at noon as agreed. I was enjoying the frosty bite of the air in my nose and throat and the surreal effect of the steam rising off the dawn-pink Heliomere when I saw Amanda running up the beach toward me, her hair flying long and loose around her..pieces of the mirror together. It's earlier than usual, but obviously there's enough body heat to keep the dome buoyed aloft I imagine the Central Arena drifting away like that floating city they want to make out of Venice, California. There is something appealing about the thought of this dome floating away like dandelion fluff. But now the massive air-conditioning units hum on and the fantasy dies..Amos was so delighted he jumped up and down. The prince swam to shore, and Amos helped him out. Then they leaned the mirror against a tree and rested for a while. "It's well I wore these rags of yours," said Jack, "and not my own clothes, for the weeds would have caught in my cloak and the boots would have pulled me down and I would have never come up. Thank you, Amos."..She rolled to her feet Swinging up onto the deck, she began using the railing as a bar for ballet exercises. She shot me an amused glance. "Ever curious, aren't you, Gordy?" But before I could protest, she grinned. "We split when we were six. I told Mandy about it when we were seven, after we'd learned to read and write. Any more questions?"..She stopped in midstride with her leg in the air. She held the position a few moments, then slowly lowered the leg and hooked her hair behind her ears while fixing me with a speculative topaz gaze. Her voice was deliberate. "Why should I be? Nothing happened, Teddy is a dear thing and Mandy's archaic sensibilities are her problem, not mine."..green, and yellow.. "Evelyn, how about an orange juice." She looked at him. He nodded. Water condensed out of it in their faceplates, and suddenly they couldn't see very well.. "You mean identify the solvent these things use? Probably, if we can get some sort of work space and I can get to my equipment".That night Amos again went to the brig. No one had missed the jailor yet So there was no guard at all.. "Matthew, I'd like to leave." Amanda fumbled for her cape..I looked unhappily at the couple standing in the outer office with my secretary. What a time for clients to walk in. "I have some people here. Can it possibly wait?"..The next glimpse is that of a running figure who advances into the screen and disappears. Now the men.."Exactly." She squinted across the vast tasteful expanse of Party-land, then stood up and waved. "I think I've recognized someone," she said excitedly, preening her paper feathers with her free hand. Far away, someone waved back..I bit my tongue but it was too late. She shrieked like a stricken animal and came at me swinging. There was a poker in her hand.. "Where's a light? cried Jack.. "And you're telling me those little spikes are what poked holes in the dome bottom? I'm not buying that."
