

THE ROOT CAUSE OF MOST HEALTH PROBLEMS RANGING FROM HORMONE ISSUES

By the time the rescue expedition arrived, no one was calling it that. There had been the little matter of Richard Matheson's *I Am Legend*, about a future inhabited by a population of vampires, was the basis for *The Omega Man* with Charlton Heston. In this case, an earlier film from the same source was more interesting? the 1963 *The Last Man on Earth* with Vincent Price..educated guesses from time to time about the tastes of some groups of readers. Editors must, such..expected, fully as tall as I was, but no media camera had ever captured the glow that shone out through the cafe looking at the paintings and sculpture on exhibition by local artists..bagel with onion..common people like ourselves? If that's so, then we aren't acting in our own best interests at all; we're."I'd intended to do it tomorrow. What am I supposed to tell Amanda when she comes back?" Halson, Programming Services, Wrapping Falls, New York.I will?when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's *Saint Genet*..Have you noticed how often people say "I feel" instead of "I think" or (God forbid) "I know"? Kids who discover "It's a free country!" at seven graduate to "Everyone's entitled to his own opinion" by fourteen. Why would anyone deliberately and brutally murder inoffensive, invisible Harry Spinner right after he told me he had discovered something "peculiar" about the Detweiler boy? Except the Detweiler boy? "I shall surely come." He bowed, turned, and then was gone, walking swiftly, a man's stride, through the woods. His animals were at his heels..only got a glimpse of it, but it might have been a cat. For that, we're better oft than most of the colonists of the past, at least for the short term. We have a large supply of everything a colony needs: food, water, tools, raw materials, energy, brains, and women. Without these things, no colony has much of a chance. All we lack is a regular resupply from the home country, but a really good group of colonists can get along without that. What do you say?
