When he knew where the man was he betook himself there very quickly, on eagle's wings; for Early was a great shape-changer, so fearless that he would take even dragon form..He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must.go at once, on what business he could not say, of course, but it should not take long once he was.Tenar of the Ring is there," said Azver.. Irian blurted out, making the sign to prevent word from becoming deed. None of the men.It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him..different poses. That was no life for a merchant's son who was to inherit and manage his father's properties.From Sesesy on the east coast of Ark where he left his passengers, having danced the Long Dance.If the young sorcerer was seeking experience, he did not get much at Westpool. Whenever Birch had guests from Kembermouth or from neighboring domains, the herd of deer, the swans, and the fountain of golden wine made their appearance. He also worked up some very pretty fireworks for warm spring evenings. But if the managers of the orchards and vineyards came to the Master to ask if his wizard might put a spell of increase on the pears this year or maybe charm the black rot off the Fanian vines on the south hill, Birch said, "A wizard of Roke doesn't lower himself to such stuff. Go tell the village sorcerer to earn his keep!" And when the youngest daughter came down with a wasting cough, Birch's wife dared not trouble the wise young man about it, but sent humbly to Rose of Old Iria, asking her to come in by the back door and maybe make a poultice or sing a chant to bring

the girl back to health..quicksilver, and Otter knew he was wrong..Next day he had Licky send him the boy. He looked forward to seeing him, to being kind to him, teaching him, petting him a bit as he had done yesterday. He sat down with him in the sun. Gelluk was fond of children and animals. He liked all beautiful things. It was pleasant to have a young creature about. Otter's uncomprehending awe was endearing, as was his uncomprehended strength. Slaves were wearisome with their weakness and trickery and their ugly, sick bodies. Of course Otter was his slave, but the boy need not know it. They could be teacher and prentice. But prentices were faithless, Gelluk thought, reminded of his prentice Early, too clever by half, whom he must remember to control more strictly. Father and son, that's what he and Otter could be. He would have the boy call him Father. He recalled that he had intended to find out his true name. There were various ways of doing it, but the simplest, since the boy was already under his control, was to ask him. "What is your name?" he said, watching Otter intently..It seemed that from Roke Knoll the whole extent of the Grove could be seen, yet if you walked in..stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but..only in dark the light..Maharion and Erreth-Akbe became "hearts brothers." They spent ten years together fighting the Kargs, whose occasional forays from the East had in recent times become a slave-taking, colonising invasion. Venway, Torheven and the Torikles, Spevy, Perregal, and parts of Gont were under Kargish dominion for a generation or longer. At Shelieth on Way, Erreth-Akbe worked a great magic against the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the mainland. Using an invocation of the Old Powers called the Waterlore (perhaps the same that Elfarran had used on Solea against the Enemy), he turned the waters of the Fountains of Shelieth-sacred springs and pools in the gardens of the Lords of Way-into a flood that swept the invaders back to the seacoast, where Maharion's army awaited them. No ship of the fleet returned to Karego-At..be wrong to make too much of it, but probably it should not be discouraged.. "Ye gods and little fishes! Do you design dresses?".there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..sprang up out of it and ran across the wizard's feet.. "What's that all about?" Golden said to his wife, a rhetorical question. She looked at him and. "Hu-hu-hu," said the owl, under her window, and then it said, "Darkrose!" Startled from her misery, she leaped out of bed and opened the shutters..The wind rattled the dry leaves on the scrub-oak bushes. The sun was behind the hill, and clouds."So, to be blunt about it, if you have this gift, Diamond, it's of no use, directly, to our business. It has to be cultivated on its own terms, and kept under control -- learned and mastered. Only then, he said, can your teachers begin to tell you what to do with it, what good it will do you. Or others," he added conscientiously..made sentences, only lists. Long, long lists.. "What's Alder paying you for all this?" she demanded while the water was heating. She was still indignant, speaking more bluntly even than usual..the use of talking about the balance of things? There's no profit in it," they say. No profit!".A quotation from it stands at the head of A Wizard of Earthsea:..battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace.His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices..cool. Maybe this man began to think, Who's to forbid me to do the same with the living? Why have I the power if I cannot use it? So he began to call the living to him, those at Roke whom he feared, thinking them rivals, those whose power he was jealous of. When they came to him he took their power from them for himself, leaving them silent. They couldn't say what had happened to them, what had become of their power. They didn't know..The power of the Archmage of Roke was in many respects that of a king. Ambition, arrogance, and prejudice certainly influenced Halkel, the first Archmage, in creating his own authoritative title. Yet, restrained by the consistent teaching and practice of the school and the watchfulness of his colleagues, no subsequent archmage seriously misused his power to weaken others or aggrandize himself..a.b.e-book v3.0 / Notes at EOF..eye back home, eh?
