If so, the new organism would be a clone of the person who donated the somatic cell. You are forty, a respected scholar, taking a few days out to review your life, as many people do at. "Take whom you like," said the grey man, "so long as you bring back my mirror." The well-muffled sailor with the coil of rope on his shoulder stepped forward with Amos. Well, no matter? it was ended now, over once and for all. Today the message had arrived from Belem: Darlene and Robbie were on the ship, ready for the flight to Manaos. You grip the knob harder, push it forward just a little. The screen lights, and you are drifting across the next room as if on huge silent wheels, chairs and end tables turning into reddish silhouettes that shrink, twist and disappear as you pass through them, and for a moment you feel dizzy because when you notice the red numbers jumping in the console to your left, it is as if the whole house were passing massively and vertiginously through itself; then you are floating out the window with the same slow and steady motion, on across the sunlit pasture where two saddle horses stand with their heads up, sniffing the wind; then a stubbled field, dropping away; and now, below you, the co-op road shines like a silver-gray stream. You press the knob down to get closer, and drop with a giddy swoop; now you are rushing along the road, overtaking and passing a yellow truck, turning the knob to steer. At first you blunder into the dark trees on either side, and once the earth surges up over you in a chaos of writhing red shapes, but now you are learning, and you soar down past the crossroads, up the farther hill, and now, now you are on the big road, flying eastward, passing all the cars, rushing toward the great world where you long to be.. unfolds.
