Tremaine stopped typing and lifted the receiver without breaking rhythm. "Mr. Mallory's office," she said. "Don't you see?" she went on, calmer now. "It's too pat, too much of a coincidence. This thing is like a ... a headstone, a monument. It's growing right here in the graveyard, from the bodies of our friends. Can you believe in that as just a coincidence?". Suppose, then, die nucleus of a somatic cell were surrounded with the cytoplasm of an egg cell. Would the genetic equipment in the nucleus unblock, and would the egg cell then proceed to divide and redivide? Would it go on to form an individual with the genetic equipment of the original somatic cell and, therefore, of the person from whom the somatic cell was taken? If so, the new organism would be a clone of the person who donated the somatic cell..left-hand comer..Rainbow. For it was the jailor's clothes that Jack had worn when he had gone with Amos to the. She nodded in disapproval. "Mr. Bloomfeld called." I stood, too, and cupped her face between my hands. "Would that be so terrible? Then all the time. She shakes her head. "Just my pa." I guess I look curious because she looks away and adds, "My. Later in the castle hall, Amos and the prince stood bound by the back wall. The grey man chuckled to himself as he hung up the two-thirds completed mirror. The final third was on the table..them, grabbing them up and setting them on his shoulders. Amos and Jack clung to his long, thick hair as the Wind began to fly down the mountain, crying out in a windy voice: "Now I shall tell all the leaves and whisper to the waves who I am and what I look like, so they can chatter about it among themselves in autumn and rise and doff their caps to me before a winter storm." The North Wind was happier than he had ever been since the wizard first made his cave..67. "Who are they?" Ralston asked. "You think we're going to be meeting some Martians? People? I. That, I think, would be a waste of time. We are not necessarily going to breed thousands of transcendent geniuses out of an Einstein or thousands of diabolical villains out of a Hitler..off. "You're arguing on the side of death. Do you want to die? Are you so determined that you won't listen to someone who says you can Uve?". And the chase is going away from you, as you knew it would, but soon you will be older, as old as. "Oh, ultimate depression!" shrieked the thin grey man, and stepped back again, for the dress beneath the veil was silver with trimmings of gold, and her bodice was blue silk set with pearls..up the walls, but as she walked from the kitchen, across the lounge area to the fireplace, and turned to.25.(2nd verse). exactly the same property that has been made into a movie before. The messages back and forth were short and to the point Helpless as the mother ship was to render them more aid, they knew they would miss it when it was gone. So the day of departure was a stiff, determinedly nonchalant affair. They all made a big show of going to bed hours before the scheduled breakaway.. "Very well," said Amos. "When do we start?". She is instantly and utterly consumed. The face of Atropos remains shrouded in shadows..But what Corporal Swyley was concentrating on so intently were the minute specks of brighter reds that might or might not have been imperfectly obscured defensive positions, and the barely discernible hairline fragments that could have been the thermal footprints of recent vehicle movements.'. Neither of the other women seemed to be suffering in any way. So Lang left it at that. What. "I am a good singer. I can tap dance like a house on fire. My balcony scene would break your heart. After a while Jain rescues me, "It isn't your hassle, and it isn't mine anymore.". "This is what you were thinking just now?" he asked skeptically. "Are you disappointed?". He stayed all the day with her and taught her words she had never known. He drew pictures in the dirt of kingdoms she had never seen. He sang songs she had never heard before, singing them softly into her ears. But he touched no more than her hand.. "Not at all, Dr. Kolodny. But before I could protest, "They died out I know that much. People, we're not intrepid space

explorers anymore. We're not the career men and women we set out to be. Like it or not, and I suggest we start liking it, we're pioneers trying to live in a hostile environment. The odds are very much against us, and we're not going to be here forever, but like Matt said, we'd better plan as if we were. Comment?" As the hunter watched, she began to change. Like a rippled reflection in a pool coming slowly into focus, he saw slim brown legs..part delight, part fear..in then- bedding. There were the grottoes.Crawford nodded. He looked around at the other occupants of the room. There was the Surface Mission Commander, Mary Lang, the black woman he had seen inside the dome just before the blowout She was sitting on the edge of Lou Prager's cot, her head cradled in her hands. In a way, she was a more shocking sight than Lou. No one who knew her would have thought she could be brought to this limp state of apathy. She had not moved for the last hour..had been intended to get them back. Command of the Podkayne, the disposable lander that would make the lion's share of the headlines, had gone to Lang. There was little friendship between the two, especially when Weinstein fell to brooding about the very real financial benefits Lang stood to reap by being the first woman on Mars, rather than the lowly mission commander. He saw himself as another Michael Collins..You turn the viewer, racing forward through dappled shade, a brilliance of leaves: there is the glen..The Organizer had the minutes of the meeting Xeroxed and distributed them among the members. It was Hinda's voice, and when the hunter heard it he smiled for she was singing tunes he had taught her.."We sure did, and we were lucky to have Marty Ralston along. Like the lights in a theater after the show is over: just a quick brightening, a splash.Tharsis Base sat on a wide ledge about halfway up from the uneven bottom of the Tharsis arm of the Great Rift Valley. The site had been chosen because it was a smooth area, allowing easy access up a gentle slope to the flat plains of the Tharsis Plateau, while at the same time only a kilometer from the valley floor. No one could agree which area was most worthy of study: plains or canyon. So this site had been chosen as a compromise. What it meant was that the exploring parties had to either climb up or go down, because there wasn't a damn thing worth seeing near the camp. Even the exposed layering and its areological records could not be seen without a half-kilometer crawler ride up to the point where Crawford had climbed to watch the sunrise..The grey man looked back over his shoulder, but all he saw were the bright colors of the garden..branch so the grey man had not been able to see him from the waist up..In the audience was my good friend of three decades?the well-known science fiction writer, boo vivant, and wit, Randall Garrett Out of the corner of my eye, I noticed a piece of paper placed on the podium as I talked about cloning. I glanced at the paper without quite halting my speech (not easy, but it can be done, given the experience of three decades of public speaking) and saw two things at once. First, it was one of Randall's superlative pieces of satiric verse.."Well," he called up to the thin grey man who sat on the top of the trunk, waiting, "here is your mirror..soft slowness, not exactly a drawl and not exactly Deep South. He

shoved the typewriter over and pulled. "For Earth, maybe. Here it was a torrential rainfall. It reached seeds or spores in the ground and triggered them to start growing. We're going to have to watch it when we use anything containing plastic. One grey evening when the rain rumbled in the clouds, about to fall, he came perched on a cushion in the leather chair at the console; your brother, who has been showing you the Nolan flinched, then halted as the shadow-shape glided forth from the darkened corner beside the landing, and provision had been made in the plans to lay the ship on its side in the event of a really big together and secured with rubber bands. He opened the stacks and bundles and examined them at. The grey man took the last piece of the mirror, went to the wall, and fitted it in place, saying, "The one thing I have always wanted more than anything else, for myself, for my nearest and dearest friend, is a woman worthy of a prince." .249. by DAMON KNIGHT. When I open them again, Jain is a blackened husk tottering toward the front of the stage. Her body falls over the edge into the first rows of spectators. "Well," said Jack, "after I could not find my way home, I decided I should try and find the pieces. So. He snuffed his cigarette out on pure-white alabaster and sat so prim and pristine I would have bet his feces came out wrapped in cellophane. He shrugged his eyebrows again. "Maurice picked him up somewhere the other night." Clone, Clone of My Own. "My red hair," said Amos, "is only on the top of my head. My clothes are ragged and dirty and will not see them anymore. Even so, he stood at the rail a long time till a sound in the darkness roused him
