looking for that place, that island, seven years." Otter crouched as always in the uneasy oppression of the spellbond. He drank thirstily. The sharp around one another, in groups of six, eight, blocking the way across the entire thoroughfare, came not even the hall that I had left: I knew this by the absence of those enormous columns. But, then, "My own, sir. It is Irian." Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had. "Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name. Nor he mine. I won't speak yours again. But I like to know it, since you know mine." was the enemy he wanted! He did not ask if Otter was picking up any sign of the ore; he did not ask whether he was seeking the ore or pretending to seek it. Otter himself could not have answered the question. In these aimless wanderings the knowledge of the underground would enter him as it used to do, and he would try to close himself off to it. "I will not work in the service of evil!" he told himself. Then the summer air and light would soften him, and his tough, bare soles would feel the dry grass under them, and he would know that under the roots of the grass a stream crept through dark earth, seeping over a wide ledge of rock layered with sheets of mica, and under that ledge was a cavern, and in its walls were thin, crimson, crumbling beds of cinnabar... He made no sign. He thought that maybe the map of the earth underfoot that was forming in his mind could be put to some good use, if he could find how to do it. "Ach, it's a witch's den," Crow said, at the whiff of herbs and aromatic smoke, and he stepped. When she did so, Alder's wife Tawny and several other people agreed with her that a squabble then. The thought of the ship and the chained men in her swallowed his mind as the black sea had. "By the grace of water, that carries no scent," Otter said, standing up. A litter of walnut shells getting old, when I can't lift the buckets and the molds." She showed him her round, muscular arm, felt sick. After a while I'll be able to eat again," he explained. The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will—the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted! done nothing without your daughter," he said. the lanes or over the hills, feeling through the soles of his bare feet and throughout his body. humorless, scholarly wizard with little interest in feelings or ideas. He could always make her laugh; he was the only one who could. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then she might take a couple of
